## SECTION: I EXECUTIVE SUMMARY

### (a) About the industry

#### Overview of Financial system of Bangladesh

The financial system of Bangladesh is comprised of three broad fragmented sectors. The sectors have been categorized in accordance with their degree of regulation.

- I. Formal Sector
- II. Semi-Formal Sector
- III. Informal Sector

**The formal sector** includes all regulated institutions like Banks, Non-Bank Financial Institutions (NFIs), Insurance Companies, Capital Market Intermediaries like Brokerage Houses, Merchant Bankers etc.; Micro Finance Institutions (MFIs).

**The semi-formal sector** includes those institutions which are regulated otherwise but do not fall under the jurisdiction of Central Bank, Insurance Authority, Securities and Exchange Commission or any other enacted financial regulator. This sector is mainly represented by Specialized Financial Institutions like House Building Finance Corporation (HBFC), Palli Karma Sahayak Foundation (PKSF), Samabay Bank, Grameen Bank, Non Governmental Organizations (NGOs) and discrete government programs.

**The informal sector** includes private intermediaries which are completely unregulated.

#### Overview of the Banking Sector of Bangladesh

After the independence, banking industry in Bangladesh started its journey with 6 nationalized commercialized banks, 3 State owned specialized banks and 9 Foreign Banks. In the 1980's banking industry achieved significant expansion with the entrance of private banks.

There are 61 scheduled banks in Bangladesh who operate under full control and supervision of Bangladesh Bank which is empowered to do so through Bangladesh Bank Order, 1972 and Bank Company Act, 1991.

Scheduled Banks are classified into following types:

Particulars	Number of Banks
State Owned Commercial Banks	6
Specialized Banks	3
Private Commercial Banks	43
Conventional Private Commercial Banks	33
Islamic Shariah Based Private Commercial Banks	10
Foreign Commercial Banks	9
Non-scheduled Banks	5

**State Owned Commercial Banks (SOCBs):** There are six SOCBs which are fully or majorly owned by the Government of Bangladesh.

**Specialized Banks (SBs):** Three specialized banks are now operating which were established for specific objectives like agricultural or industrial development. These banks are also fully or majorly owned by the Government of Bangladesh.

**Private Commercial Banks (PCBs):** There are forty-three private commercial banks which are majorly owned by individuals/the private entities. PCBs can be categorized into two groups:

**Conventional PCBs:** Thirty-three conventional PCBs are now operating in the industry. They perform the banking functions in conventional fashion i.e. interest based operations.

**Islamic Shariah based PCBs:** There are ten Islamic Shariah based PCBs in Bangladesh and they execute banking activities according to Islamic Shariah based principles i.e. Profit-Loss Sharing (PLS) mode.

**Foreign Commercial Banks (FCBs):** Nine FCBs are operating in Bangladesh as the branches of the banks which are incorporated in abroad.

**Non-scheduled banks:** There are now five non-scheduled banks in Bangladesh which are: Ansar VDP Unnayan Bank, Karmashangosthan Bank, Grameen Bank, Jubilee Bank, Palli Sanchay Bank.

The performance of the banking sector of Bangladesh has been largely affected by the COVID-19 pandemic situation. In 2019, the SOCBs held 24.51 percent share of the total assets which was 25.60 percent in 2018. PCBs' share of the total assets increased slightly to 67.80 percent in 2019 from 67.00 percent in 2018. The FCBs held 5.50 percent share of the total assets in 2019, showing an increase of 0.3 percent over the last year. The SBs' share of the total assets was 2.20 percent in 2019 which was same in 2018. At the end of December 2019, total assets of the banking sector stood at BDT 16,298.40 billion which was 11.84 percent higher than that of the previous year. Total deposits of the banking sector stood at BDT 12,145.20 billion in 2019 which was BDT 10,798.70 billion in 2018, showing an increase of 12.46 percent.

**Source:** Bangladesh Bank Annual Report, 2019-20.

From the year 2018 to 2019, considering the share in total deposit of the banking sector, SOCBs' share decreased from 26.60 percent to 25.00 percent, PCBs' share increased from 66.00 percent to 68.10 percent, FCBs' share decreased from 4.80 percent to 4.30 percent and SBs' share remained same which was 2.60 percent in both years.

In 2019, the SOCBs' assets rose by 7.10 percent and that of the PCBs' increased by 13.10 percent. The aggregate banking sector assets consisted of BDT 10,315.10 billion as loans and advances (63.30 percent of total assets), BDT 161.60 billion as cash including foreign currencies, BDT 885.40 billion as deposit with BB including foreign currencies, BDT 2,157.10 billion as investment in treasury securities and BDT 2,779.10 billion as other assets during the period. Deposits continued to be the main sources of funds of the banking industry in FY20 and it (excluding inter-bank) constituted 74.50 percent of the total amount of liability and shareholders' equity in 2019. Total shareholders' equity of the banks was BDT 1,027.50 billion at the end of December 2019 which was BDT 931.00 billion in 2018.

Under Basel-III, banks in Bangladesh are instructed to maintain the Minimum Capital Requirement (MCR) at 10.00 percent of the Risk Weighted Assets (RWA) or BDT 4.00 billion as capital, whichever is higher. The aggregate amount of regulatory capital of the banking sector was BDT 1,211.35 billion as on 31 December 2019 which increased to BDT 1,267.09 billion at the end of June 2020.

Source: Bangladesh Bank Annual Report, 2019-20.

It is observed that the CRAR of SOCBs, PCBs and FCBs were 6.90, 13.30 and 24.40 percent respectively as on 30 June 2020. The SBs failed to maintain MCR on risk weighted assets basis. Besides, 4 SOCBs and 3 PCBs could not maintain the minimum required CRAR. The CRAR of the banking industry as a whole was 11.60 percent at the end of June 2020.

The most important indicator to demonstrate the asset quality is the ratio of gross Non-Performing Loans (NPLs) to total loans and net NPLs to net total loans. At the end of December 2019, the gross NPL ratio of the banking sector stood at 9.30 percent. FCBs had the lowest and SOCBs had the highest gross NPL ratio. FCBs' gross NPL ratio was 5.70 percent, whereas those of SOCBs, PCBs and SBs were 23.90, 5.80 and 15.10 percent respectively at the end of December 2019.

Source: Bangladesh Bank Annual Report, 2019-20.

It is observed that the ratio of gross NPLs to total loans and advances indicates a mixed trend in the banking sector during the period from 2011 to June 2020. NPL ratio of the banking sector was 6.10 percent in 2011. But the ratio sharply increased to 10.00 percent in 2012 mainly due to adaptation of new loan classification policy. From 2013, a fluctuating trend of NPL ratio was observed and it was 9.30 percent as on 31 December 2019. At the end of June 2020, NPL ratio of the banking sector stood at 9.20 percent.

19. The Issuer shall send the penalty amount to the Commission through a bank draft/payment order issued in favor of the Bangladesh Securities and Exchange Commission.
20. The concerned Exchanges are authorized to settle any complaints and take necessary actions against any Stockbroker/Merchant Banker in case of violation of any provision of the public issue application process with intimation to the Commission.

#### PART-C

1. The issue managers shall carefully examine and compare the published prospectus and its abridged version on the date of publication with the copies vetted by the Commission. If any discrepancy is found, both the issuer and the issue managers shall jointly publish a corrigendum immediately in the same newspapers concerned, simultaneously endorsing copies thereof to the Commission and the Exchanges concerned. In this regard, the issue manager(s) shall submit a compliance report to the Commission **within 5 working days** from the date of such publications.
2. The fund collected through Initial Public Offering shall not be utilized prior to listing with Exchange(s) and that utilization of the said fund shall be effected through banking channel, i.e. through account payee cheque, pay order or bank drafts etc.
3. The Company shall furnish status report on utilization of Public Offering proceeds audited by foreign affiliated auditors and authenticated by the board of directors to the Commission and the Exchanges within **15 (Fifteen) days** of the closing of each quarter until such fund is fully utilized, as mentioned in the schedule contained in the prospectus. The issuer shall simultaneously post the status report in its websites and Exchanges shall also post the same in company information contained in websites of the Exchanges. In the event of any irregularity or inconsistency, the Commission may employ or engage any person to examine whether the issuer has utilized the proceeds for the purpose disclosed in the prospectus.
4. While auditing the utilization of IPO proceeds, the auditors will perform their jobs under the following terms of reference (TOR) and confirm the same in their report/certificate:
  - a) Whether IPO proceeds have been utilized for the purposes/heads as specified in the prospectus;
  - b) Whether IPO proceeds have been utilized in line with the condition (if any) of the Commission's consent letter;
  - c) Whether utilization of IPO proceeds have been completed within the time schedule/implementation schedule as specified in the published prospectus;
  - d) Whether utilization of IPO proceeds is accurate and for the purpose of the Company as mentioned/specified in the published prospectus; and
  - e) The auditors should also confirm that:(i) assets have been procured/imported/constructed maintaining proper/required procedure as well as at reasonable price; and (ii) auditors'report has been made on verification of all necessary documents/papers/vouchers in support of IPO proceeds making reconciliation with Bank Statement.
5. All transactions, excluding petty cash expenses, shall be effected by crossed cheques or bank transfers.
6. Proceeds of the public offering shall not be transferred to any other bank account before listing with the Exchange(s). The proceeds shall not be used for any purpose other than those specified in the prospectus without any valid ground. Any deviation in this respect of purpose and time must have prior approval of at least 51% of the public shareholders, other than sponsors and directors, in a general meeting through a board-approved agenda and due notification to the shareholders. Before the said general meeting, such deviation as recommended by the Board of Directors shall be published as price-sensitive information with

detailed description and reasons for such deviation. If approved by the shareholders, the meeting resolution shall be submitted to the Commission along with reasonable explanations and the decision shall be published as price-sensitive information.

7. If any quarter of the financial year ends after publication of the abridged version of prospectus and before listing of its securities with any exchange, the Company shall disseminate/transmit/submit the said quarterly financial statements in accordance with the Commission's Notification BSEC/CMRRCD/2006-158/208/admin/81 dated 20 June 2018 and Rules 15 of the Securities and Exchange Rules, 2020.
8. In the event of arising issues concerning Price Sensitive Information as defined under the সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (সুবিধাজোগী ব্যবসা নিষিদ্ধকরণ) বিধিমালা ১৯৯৫ after publication of the abridged version of prospectus and before listing of its securities with any exchange, the Company shall disseminate/transmit/submit the information as price sensitive in accordance with the Commission's Notification No. SEC/SRMI/200-953/1950 dated October 24, 2000.

#### **PART-D**

1. As per provision of the Depository Act, 1999 & Regulations made thereunder, shares will only be issued in dematerialized condition. All transfer/transmission/splitting will take place in the depository system of Central Depository Bangladesh Ltd. (CDBL) and any further issuance of shares (Including rights/bonus) will be made in dematerialized form only.
2. The issuer and the issue manager shall ensure due compliance of all the above conditions, the Bangladesh Securities and Exchange Commission (Public Issue) Rules, 2015' and the listing regulations of the Exchanges.

**Provided that the Board of Directors of the issuer along with the Issue Manager(s) shall conduct a quarterly meeting with the Capital Issue Department of the Commission regarding compliance status of its business plan as mentioned in the Prospectus.**

3. The Commission may impose further conditions/restrictions etc. from time to time as and when considered necessary which shall also be binding upon the issuer company.

## SECTION: VI DESCRIPTION OF THE ISSUER

### (a) Summary

#### (i) The summary of the industry and business environment of the issuer:

##### Overview of Financial system of Bangladesh

The financial system of Bangladesh is comprised of three broad fragmented sectors. The sectors have been categorized in accordance with their degree of regulation.

- I. Formal Sector
- II. Semi-Formal Sector
- III. Informal Sector

**The formal sector** includes all regulated institutions like Banks, Non-Bank Financial Institutions (FIs), Insurance Companies, Capital Market Intermediaries like Brokerage Houses, Merchant Bankers etc.; Micro Finance Institutions (MFIs).

**The semi-formal sector** includes those institutions which are regulated otherwise but do not fall under the jurisdiction of Central Bank, Insurance Authority, Securities and Exchange Commission or any other enacted financial regulator. This sector is mainly represented by Specialized Financial Institutions like House Building Finance Corporation (HBFC), Palli Karma Sahayak Foundation (PKSF), Samabay Bank, Grameen Bank, Non Governmental Organizations (NGOs) and discrete government programs.

**The informal sector** includes private intermediaries which are completely unregulated.

##### Overview of the Banking Sector of Bangladesh

After the independence, banking industry in Bangladesh started its journey with 6 nationalized commercialized banks, 3 State owned specialized banks and 9 Foreign Banks. In the 1980's banking industry achieved significant expansion with the entrance of private banks.

There are 61 scheduled banks in Bangladesh who operate under full control and supervision of Bangladesh Bank which is empowered to do so through Bangladesh Bank Order, 1972 and Bank Company Act, 1991.

Scheduled Banks are classified into following types:

Particulars	Number of Banks
State Owned Commercial Banks	6
Specialized Banks	3
Private Commercial Banks	43
Conventional Private Commercial Banks	33
Islamic Shariah Based Private Commercial Banks	10
Foreign Commercial Banks	9
Non-scheduled Banks	5

**State Owned Commercial Banks (SOCBs):** There are six SOCBs which are fully or majorly owned by the Government of Bangladesh.

**Specialized Banks (SBs):** Three specialized banks are now operating which were established for specific objectives like agricultural or industrial development. These banks are also fully or majorly owned by the Government of Bangladesh.

**Private Commercial Banks (PCBs):** There are forty-three private commercial banks which are majorly owned by individuals/the private entities. PCBs can be categorized into two groups:

**Conventional PCBs:** Thirty-three conventional PCBs are now operating in the industry. They perform the banking functions in conventional fashion i.e. interest based operations.

**Islamic Shariah based PCBs:** There are ten Islamic Shariah based PCBs in Bangladesh and they execute banking activities according to Islamic Shariah based principles i.e. Profit-Loss Sharing (PLS) mode.

**Foreign Commercial Banks (FCBs):** Nine FCBs are operating in Bangladesh as the branches of the banks which are incorporated in abroad.

**Non-scheduled banks:** There are now five non-scheduled banks in Bangladesh which are: Ansar VDP Unnayan Bank, Karmashangosthan Bank, Grameen Bank, Jubilee Bank, Palli Sanchay Bank.

**Source:** Bangladesh Bank Annual Report, 2019-20.

From the year 2018 to 2019, considering the share in total deposit of the banking sector, SOCBs' share decreased from 26.60 percent to 25.00 percent, PCBs' share increased from 66.00 percent to 68.10 percent, FCBs' share decreased from 4.80 percent to 4.30 percent and SBs' share remained same which was 2.60 percent in both years.

In 2019, the SOCBs' assets rose by 7.10 percent and that of the PCBs' increased by 13.10 percent. The aggregate banking sector assets consisted of BDT 10,315.10 billion as loans and advances (63.30 percent of total assets), BDT 161.60 billion as cash including foreign currencies, BDT 885.40 billion as deposit with BB including foreign currencies, BDT 2,157.10 billion as investment in treasury securities and BDT 2,779.10 billion as other assets during the period. Deposits continued to be the main sources of funds of the banking industry in FY20 and it (excluding inter-bank) constituted 74.50 percent of the total amount of liability and shareholders' equity in 2019. Total shareholders' equity of the banks was BDT 1,027.50 billion at the end of December 2019 which was BDT 931.00 billion in 2018.

Under Basel-III, banks in Bangladesh are instructed to maintain the Minimum Capital Requirement (MCR) at 10.00 percent of the Risk Weighted Assets (RWA) or BDT 4.00 billion as capital, whichever is higher. The aggregate amount of regulatory capital of the banking sector was BDT 1,211.35 billion as on 31 December 2019 which increased to BDT 1,267.09 billion at the end of June 2020.

Source: Bangladesh Bank Annual Report, 2019-20.

It is observed that the CRAR of SOCBs, PCBs and FCBs were 6.90, 13.30 and 24.40 percent respectively as on 30 June 2020. The SBs failed to maintain MCR on risk weighted assets basis. Besides, 4 SOCBs and 3 PCBs could not maintain the minimum required CRAR. The CRAR of the banking industry as a whole was 11.60 percent at the end of June 2020.

The most important indicator to demonstrate the asset quality is the ratio of gross Non-Performing Loans (NPLs) to total loans and net NPLs to net total loans. At the end of December 2019, the gross NPL ratio of the banking sector stood at 9.30 percent. FCBs had the lowest and SOCBs had the highest gross NPL ratio. FCBs' gross NPL ratio was 5.70 percent, whereas those of SOCBs, PCBs and SBs were 23.90, 5.80 and 15.10 percent respectively at the end of December 2019.

Ratio of Gross NPLs to Total Loans by Type of Bank										(In Percent)

Source: Bangladesh Bank Annual Report, 2019-20.

It is observed that the ratio of gross NPLs to total loans and advances indicates a mixed trend in the banking sector during the period from 2011 to June 2020. NPL ratio of the banking sector was 6.10 percent in 2011. But the ratio sharply increased to 10.00 percent in 2012 mainly due to adaptation of new loan classification policy. From 2013, a fluctuating trend of NPL ratio was observed and it was 9.30 percent as on 31 December 2019. At the end of June 2020, NPL ratio of the banking sector stood at 9.20 percent.

## Business Environment

The Bank started its commercial operation on June 20, 2013 with a corporate slogan "bank for inclusive growth" entitled to carry out all types of commercial banking activities. MDB stepped in the industry through Dilkusha Corporate Branch in Dhaka, since then, the Bank has been constantly expanding far and wide in both network and business. Presently, the Bank has total 35 Branches (16 Urban Branches and 19 Rural Branches), 13 Sub Branches, 51 ATMs, 100 Agent Banking Centers (ABCs) and 10 Collection Booths covering commercially important locations across the country.

In 2019, the Bank also got Islamic banking window license to operate Islamic banking activities across the country through its branch & sub-branch networks under a separate Islamic banking module. The Bank has set up its Shariah Supervisory Council and started Islamic banking activities successfully in the name & style "MDB Saalam" under the supervision of Islamic banking window at Gulshan Branch.

The Bank has been granted license for Off-shore banking which will help expand the foreign exchange related business supporting the clients with their foreign trade and foreign currency need. The bank has successfully launched Off-shore banking activities from June 20, 2020.

**(c) The rationale or description of the ratings (s) so obtained, as furnished by the credit rating agency(s):**

Emerging Credit Rating Limited (ECRL) has assigned A+ (Pronounced as Single A Plus) long term credit rating and ST-2 short term credit rating to Midland Bank Limited (hereinafter referred to as 'MDB' or 'the bank') based on audited financials of FY2018-FY2021 and other available information up to the date of rating declaration. The outlook on the rating is Stable. The rating is consistent with ECRL's methodology for this type of financial institutions and bond rating. The rating reflects the strengths and challenges of the bank. The strengths include good growth in terms of loans and deposits, compliant with CRR, SLR & CRAR requirement, growth in operating income. However, ECRL is concerned about the significant increase of NPL, high exposure to large loans, slump in non-interest income as well as fall in post-tax profit.

In the middle of the pandemic, MDB's total asset continued to grow, as seen by a 19.34% increase in total assets in FY2020 and further 9.30% by the end of FY2021. The improvement was aided by the principal component of the total asset, loans and advances, which increased by 17.35% in FY2021. However, the growth rate of gross loans and advances portfolio of MDB has fluctuated over the previous four-year period. The improvements to loans portfolio have been mostly aided by the increasing term loan portfolio in 2021. Focusing on the investment portfolio of MDB which had continuous growth in the 2018-2020 period, however, slowed down considerably in FY2021 showing a minimal 2.37% uplift.

Notably, there was a significant 221.35% increase of NPL of MDB during FY2021 that showed the highest NPL amount of BDT 1,455.05 million among the FY2018-FY2021 period. The performance of loans deteriorated after the loan downwards classification as well as relaxation on loan payments regulations was slowly redacted in 2021 and many businesses still struggled to make repayments on schedule. The portions of sub-standard and doubtful loans have increased in the NPL portfolio in 2021. The NPL to gross loan ratio increased to 3.17% in FY2021 from 1.16% in FY2020. Loan loss reserve of the bank covered 75.45% of the total NPL in FY2021 against a significantly higher 173.19% in FY2020 indicating worsened safety against potential losses arising from the NPLs in future. The bank has maintained BDT 1,097.80 million provisions against classified and unclassified loans and advances with no surplus/shortfall in the latest year.

For countering the loan quality deterioration, the bank had rescheduled a total of BDT 2,193.18 million loans in FY2021 which was BDT 832.54 million by the end of FY2020. The rescheduled loans represented 4.78% of the total loan portfolio while MDB has not written off any loans in FY2021. Combining it all, the NPLs, rescheduled

loans and written-off loans together represented 7.95% of the loan book of the bank from 3.29% in the same time previous year. MDB has high exposure to its large loan portfolio. The bank's exposure to large loans (funded and non-funded together exceeding 10% of bank's capital) was 49.98% of total loans in FY2021 in contrast to 47.70% in FY2020. On top of that, the top 30 credit exposure (funded and non-funded together) of the bank reached BDT 22,863.52 million (49.85% of total loans) in FY2021.

Total capital (Tier-I and Tier-II) of the bank stood at BDT 8,132.78 million in FY2021 and the risk weighted asset at BDT 51,240.21 million. The CRAR had a downfall to 15.87% from 17.44% in FY2020; however, the bank comfortably exceeded the minimum capital requirement of 12.50% in both times.

MDB's deposits base have improved by 12.56% in 2021 which had been increasing over the previous three years as well. The bank has kept its ADR ratio within the regulatory requirement of Bangladesh Bank within 87% during FY2021 and scored 83.62% in the loan to deposit ratio. For conventional banking, MDB kept the required CRR and SLR amount with surplus standing at BDT 215.63 million and BDT 7,569.36 million in FY2021 respectively. For Islamic banking, the bank also kept the required CRR and SLR amount with surplus standing at BDT 66.37 million and BDT 172.80 million in FY2021 respectively.

Due to the above mentioned interest rate cap imposed by Bangladesh Bank as well as lower demand for credit due to the ongoing covid-19 pandemic, the net interest income of MDB fell by a significant 67.69% in FY2020. The bank recovered by exhibiting a 135.47% growth in FY2021 from the position of 2020. Although the non-interest income lowered by 12.69% in 2021 the total operating income of the bank had moderate growth of 13.62%. Despite MDB's loans & advances growing by 17.35% in 2021, the bank's interest income from lending activities grew only by 5.47%. In 2021, total operating income of the bank consisted 63.20% non-interest income and the rest by net interest income. The cost to income ratio of the bank showed reduced figures according to the decrease of operating cost compared to operating income in FY2021. The bank's provision and tax expenses increased compared to previous year. Eventually, MDB earned lower post-tax profit of BDT 514.02 million in FY2021 from BDT 656.36 million in FY2020 with a negative growth of 21.69%. The primary contributor of decrease in post-tax profit was higher provision and tax expenses during FY2021.

The Stable rating outlook reflects ECRL's expectations that MDB is likely to maintain its business growth and consistency and the bank will adopt policies and actions to improve asset quality.

**(iii) Plant, machinery, technology, process, etc.**

**Plant and Machinery:**

Since the issuer company (MDB) is a banking organization running with many branches and sub-branches all over the Bangladesh in order to provide banking services, there requires no plant and machinery for the operation of MDB.

**Technology:**

Information Technology (IT) is the heart of the banking system in today's world and is now play as the key business enabler and the back-bone of banking industry in Bangladesh. Adopting technological innovations in banking not only made banking transaction more efficient and faster but also enabled banking industry to open up various channels to provide banking service to customers and taking bank to the doorstep of unbanked customers as well. Information Technology (IT) is also changing the supervisory and regulatory landscape of the banking industry. Regulators are introducing IT driven tools for more effective supervision while new supervisory challenges are arising each day with the advent of new technology and new innovation in banking. So the use of information technology in banking is increasing rapidly. The banking industry is evolving very quickly from the traditional brick and mortar banks to digital banks. As the internet era expanded, the banking channels and models have gone a long way far beyond the human imagination. The Internet has opened the gates towards digital transformation and innovation and completely revolutionized the banking industry by empowering banks to serve their customers in a better way thereby reducing costs and improving banking experience. Understanding the changing scenario, MDB has already started initiatives for digitalization of its services on a focus to offer simple but secured banking to its customers. Core Banking System (CBS), is the backbone of today's banking activities which MDB upgraded in the year 2019 to fulfill our customer needs in more efficient manner. This allows the Bank to launch diversified deposit and lending products and other banking services to meet wide ranging requirement of all segments of customer. Also through automation and robustness of the processes, MDB ensures transparency, accuracy and security of the services of the Bank. MDB has adopted a 'Digital First' mindset - putting digital at the heart of the business - an effective way to redefine relationship with the customers. MDB believes, by having a truly digital business, it can move away from reactive, transaction-based customer relationships, towards a more intimate, proactive and personalized experience, across multiple channels, products and services. Consequently, the bank is connected with modern payment systems of country and introduced technology enabled systems, expediting digital experience of the clients, keeping them abreast of changing scenarios. To connect the customers more with digital currency, MDB has updated, secure and robust internet banking platform with enhanced features. MDB has made an arrangement with bKash, the largest Mobile wallet service in the country, to transfer money from customer's bank account. The new feature has added value with the current features getting account statement, maintain inter & intra bank fund transfer, pay utility and credit card bills. Last year, MDB has introduced its operations from new DR site located at Mirpur, which was equipped with world renowned, latest and sophisticated devices and technology to run the banking services. MDB has implemented secure and reliable communication channel with scalable, redundant and load balanced architecture to ensure highest level of availability. Secure communication channel is maintained to

ensure security of the bank. Network zones are efficiently managed, the access in the networks are monitored and maintained strictly.

**Process:**

In MDB, applications are submitted to the Credit Risk Management (CRM) Division for approval. The CRM division approves the credit proposal within the limit set by the Board of Directors. Other applications those exceeds the limit, the CRM division coordinates and prepares credit recommendations to the Management of Credit Committee, The Board Executive Committee and to the Board of Directors. Credit processing are conducted on the basis of extensive knowledge of the risks inherent to each individual exposure for the purpose of striking a balance between risk and earnings opportunities and in compliance with the overall goals defined by Board of Directors and Bangladesh Bank.

**Future prospects and growth drivers of the banking industry of Bangladesh**

Powerful forces like mobilization of almost everything, disruptive technologies such as Artificial Intelligence and Blockchain, regulatory requirements, demographics and economics and operating in tandem with shifting consumer expectations will have unprecedented impact on the banking landscape. Hence, banks must not only execute on today's imperatives, but also radically innovate and transform themselves in order to win in the next era.

PwC Banking Survey 2020 has identified the six strategic priorities for banks to keep up with the pace of transformation. The graph included here depicts these strategic priorities, the importance, and preparedness levels of banks. This scenario holds true for banks in both developed and emerging markets and the achievement of these strategic priorities require banks to tune in to the changing consumer preferences, embrace disruptive technologies like AI, Blockchain, and IoT as enablers wherever appropriate, and develop a culture of innovation through research and development.

Banks in developed countries are doing better in this regard owing to greater industry maturity and higher rates of technology adoption. Even emerging countries like India has jumped into the bandwagon wholeheartedly while Bangladeshi banks are lagging. Although the banking industry in Bangladesh has come a long way over the last 48 years, we were unable to do much other than the management of cross-border trade volume increasing. Large non-performing loans (NPLs), low automation, the least possible number of retail banking solutions, low access to

internet banking, concentration of banking limits, or exposure to few groups or families (that too in cash credit), hypothecation of assets, import loans, and term loans are synonymous of Bangladeshi banking. Too many banks, far too few banking solutions or products, and rising level of NPLs are also not helping the banks maintain or strengthen their profitability and ROE.

The solutions to these problems lie in the prudent implementation of the six strategic priorities identified by the PwC Banking Survey 2020 (a survey among global banking executives). The boom of the Mobile banking sector with almost 80 million clients and average daily transaction volume of over Tk. 1,300 crore can largely be attributed to a simplified customer-centric business model and optimized distribution powered by innovative utilization of Mobile technology.

Financial inclusion achieved through agent banking or booth banking, an Alternative Delivery Channel (ADC), is another evidence of optimized distribution and business process simplification. Moreover, Bangladesh Bank has recently mandated e-KYC, which should help reduce the instances of default and NPL due to increased objectivity. Following a similar logic, we can also argue the case for big data analytics and automation of relevant due diligence can cultivate the power of information and help predict behaviour patterns of both regulators and consumers, thus equipping banks with a tool of proactive risk management. The scenario is similar in most other emerging economies and the existing shortcomings do point towards hanging back investments in research and development and appropriate technologies.

That, in turn, has resulted in a paucity of efforts towards consumer service enhancement and product portfolio expansion. PwC Banking Survey 2020 identifies the top three investment priorities according to the opinion of bank executives in emerging markets.

The analysis based on the PwC Banking Survey, validates the emphasis required on innovation and technological adoption focused towards providing consumers with improved experience through seamless service and diverse product offerings. Consumer preference, cost-cutting needs and regulatory requirements are making automation a hygiene factor rather than differentiator. Utilization of alternative delivery channels like virtual banking and POS based banking are becoming increasingly important for profitability. Jim Marous in The Financial Brand magazine opined that: In the long run, banks will need to move further into the daily lives of customers, becoming wealth management advisors who provide assistance before, during and after a financial transaction. To succeed in this rapidly changing landscape, banks need to have a clear sense of the posture they wish to adopt -- whether to shape the industry, rapidly follow the leaders, or manage defensively, putting off change and a strategy which addresses these priorities, including third party collaborations and application of lessons from other industries. Of course, the level of focus on each of them depends both on a bank's starting point and its unique strengths and challenges. However, each priority is important, and success will come from a balanced execution across them and a balance of tactical initiatives and longer term programs, all coming together as an integrated whole.

The financial sector is at the forefront of 4th Industrial Revolution (4IR) globally and Bangladesh is not an exception. Technological Innovations in financial services popularly known as Fintech brings disruptions to the conventional banking system. Financial technologies e.g. Internet of Things, Blockchain Technology, Augmented reality (AR), virtual reality (VR), Open APIs, Big Data, Machine Learning, Robo advice, Smart contracts and Cloud computing, etc. could be used separately or all together to bring numerous benefits to the financial system as well as to consumers. From the experience of other countries, it has been found that, collaboration between traditional banks and Fintech firms often resulted in the best form of digital bank. Countries like Australia, Brazil, Singapore, Hong Kong, Malaysia, UAE, and KSA have already successfully implemented digital banking to meet the ever growing client demand. The prospect of such banking services in Bangladesh has already been partially demonstrated by the Mobile Financial Services providers in the country.

**(xviii) A brief description of business strategy**

In Bangladesh, the banking business is passing through a transition. While MDB is encouraging the customers to use digital platforms to avail their services online in real-time, concurrently, Bangladesh Bank is now formulating new guideline of the operations of full-pledged digital banks, widening a new horizon for banking. Now onwards, conventional banks will have to compete in the financial market with the digital banks, mobile financial intermediaries and hybrid banks. Midland Bank has invested in IT infrastructure and developed robust digital platform for its customers since inception. The bank has adequately taken preparation for the new challenges posed by the inevitable regulatory openings and is ready to embrace the enormous opportunities of banking business.

For the first time since 2018, liquidity is not a big concern for MDB. Anticipating the natural cycle of money market, MDB did not book any long-term high cost deposits in the preceding years. The decision of MDB not being aggressive in sourcing deposits proved to be fruitful in the changing liquidity scenario. Last year, MDB had enough liquidity to cater to the business need and took steps to rationalize the deposit rates downward to limit the unutilized liquidity.

However, the deposit portfolio of the bank has further consolidated and reshaped in a positive way in the last year, increasing the low-cost deposit from 23.47% to 24.62% by the end on 2021. As per MDB's steady growth approach, the asset portfolio of the bank grew by 9.30%, as it made credible and prudent credit judgement since beginning. As MDB is very selective in choosing asset customers, the highest effort and focus is continuing to maximize the non-interest and non-funded business.

During 2021, the retail customer relationships increased by 23%, reaching 1,57,465 by December 2021. The digital banking customers of the Bank, which increased many fold during the pandemic, is the future base of MDB's retail customers. At present, MDB has smaller number of large corporate deposits and 47% of the portfolio comprises of individual and retail deposits. In the eighth year of operation, MDB has gained resilience to absorb any sudden shock of deposit outflow by huge improvement in the deposit mix and also withstand NPL shock by keeping provisions at required level. The Management of MDB is conscious of the aftermath of covid-19 pandemic and shall act as per prudent guidance of the Board. At present, 44% of total deposit consists of retail deposits including current account savings account (CASA) and aggregate retail, CASA and other small deposits constitute 54.44% of our total deposits base.

By the end of 2021, the number of Branches reached 35, amongst which 16 are urban and 19 are rural. The Sub-branch network reached 13 and Agent Banking Centres (ABC) increased to 100 by the end of 2021. MDB has plan to further expand the service network throughout the country opening of Sub-branches and ABCs in 2022. As per business policy, Midland Bank always prefers to expand its services in the rural areas rather than competing in the overcrowded concentrated geographical banking hubs many of which are over banked. During the last three years, MDB opened 4 rural branches compared to 2 urban and intends to launch more new branches in the days ahead, most of them will be rural. Moreover, MDB plans to open more Sub-branches in the prime and potential business locations and intends to expand Agent Banking network in near future. The bank has obtained Islamic Banking License from Bangladesh Bank for commencing Shariah Banking services through two window at the flagship branches in Dhaka and Chittagong at Gulshan and Agrabad. Through this initiative, the bank has introduced all types of Islamic banking services which have been providing from all the Branches, Sub-branches and Agent Banking Centres. MDB has procured Islamic core banking software and introduced it ensuring fully separate Islamic banking operational platform.

**(t) Business strategies and future plans. Projected financial statements should be required only for companies not started commercial operation yet and authenticated by two directors, Chairman, Managing Director, CFO, and Company Secretary.**

Projected financial statements is not required as MDB has been in commercial operation since 2013.

**Key Strategic Objectives of MDB:**

For the first time since 2018, liquidity is not a big concern for MDB. Anticipating the natural cycle of money market, MDB did not book any long-term high cost deposits in the preceding years. The decision of MDB not being aggressive in sourcing deposits proved to be fruitful in the changing liquidity scenario. Last year, MDB had enough liquidity to cater to the business need and took steps to rationalize the deposit rates downward to limit the unutilized liquidity. However, the deposit portfolio of the bank has further consolidated and reshaped in a positive way in the last year, increasing the low-cost deposit from 23.47% to 24.62% by the end on 2021. As per MDB's steady growth approach, the asset portfolio of the bank grew by 9.30%, as it made credible and prudent credit judgement since beginning. As MDB is very selective in choosing asset customers, the highest effort and focus is continuing to maximize the non-interest and non-funded business.

During 2021, the retail customer relationships increased by 23%, reaching 1,57,465 by December 2021. The digital banking customers of the Bank, which increased many fold during the pandemic, is the future base of MDB's retail customers. At present, MDB has smaller number of large corporate deposits and 47% of the portfolio comprises of individual and retail deposits. In the eighth year of operation, MDB has gained resilience to absorb any sudden shock of deposit outflow by huge improvement in the deposit mix and also withstand NPL shock by keeping provisions at required level. The Management of MDB is conscious of the aftermath of covid-19 pandemic and shall act as per prudent guidance of the Board. At present, 44% of total deposit consists of retail deposits including current account savings account (CASA) and aggregate retail, CASA and other small deposits constitute 54.44% of our total deposits base.

By the end of 2021, the number of Branches reached 35, amongst which 16 are urban and 19 are rural. The Sub-branch network reached 13 and Agent Banking Centres (ABC) increased to 100 by the end of 2021. MDB has plan to further expand the service network throughout the country opening of Sub-branches and ABCs in 2022. As per business policy, Midland Bank always prefers to expand its services in the rural areas rather than competing in the overcrowded concentrated geographical banking hubs many of which are over banked. During the last three years, MDB opened 4 rural branches compared to 2 urban and intends to launch more new branches in the days ahead, most of them will be rural. Moreover, MDB plans to open more Sub-branches in the prime and potential business locations and intends to expand Agent Banking network in near future. The bank has obtained Islamic Banking License from Bangladesh Bank for commencing Shariah Banking services through two window at the flagship branches in Dhaka and Chittagong at Gulshan and Agrabad. Through this initiative, the bank has introduced all types of Islamic banking services which have been providing from all the Branches, Sub-branches and Agent Banking Centres. MDB has procured Islamic core banking software and introduced it ensuring fully separate Islamic banking operational platform.

**Future Plan of MDB**

Midland Bank will rely on its core strength- strong corporate governance and prime customer base, for its future business expansion. As lending rate is capped at 9%, which the bank predicts will be enforced for upcoming years, Midland Bank concentrated its strategy in reducing cost of deposit and achieve further cost effectiveness in its business operation.

The prime focus of Midland Bank in the coming years is to mobilize stable and low cost deposits to fund its loan portfolio. The Management of the Bank has observed that Bangladesh is going through a technological transformation and people are relying more and more on digital banking applications. Considering that, Midland Bank has developed fully capable online banking solutions where clients can open new deposit products, make fund transfer to other Banks and Mobile Financial Services, make payment, see account statements, and pay utility bills while availing cash management solutions. Midland Bank introduced digital account opening where client can open a deposit account sitting from their home.

To cater to the need of institutional clients, Midland Bank launched fully digital cash management services. Clients can pay various bills and even VAT using the platform of Midland Bank. The digital platforms of the Bank will create leverage in the coming years, as the user base is growing and increasing number of corporate houses are using MDB Cash management solutions. MDB feels, such initiatives will diversify the funding the source of the Bank, reducing cost of deposit to a greater extent.

With one rural branch against one urban branch, Midland Bank chose to do banking in rural areas where no other private bank has foothold. The bank feels that, offering quality banking service to the un-banked area will create traction and build a core and loyal customer base in the rural areas. Since inception of the Bank, through its small but strategically positioned branches, MDB is observing excellent customer base and good deposit growth, especially in the rural branches. In the future, Midland Bank will continue to rely on this strategy and expand its footprint in rural areas utilizing its Branches, Sub-branches and Agent Banking Centers.

On the loan side, Midland Bank will continue its focus to cater to the banking needs of prime segment of corporate houses. As the Bank is getting aged, it now has the capacity to expand its trade services business. With this added capacity, which MDB assumes will further increase as the Bank is getting publicly listed, Midland Bank will expand its banking on non-funded business. Present book of the Bank includes top customers from Manufacturing, Textile and garments industry and Midland Bank is planning to get a larger pie of non-funded business from these customers. Midland Bank always brings innovative and practical solutions to its customers, by utilizing the expertise of its skilled workforce and capable structured finance team. With the expansion of economy and increase in competition, Midland Bank will expand its lending book on structured finance products, which also has the potentials to earn higher fee income. Also, Midland Bank has Off-shore Banking Unit to offer low-cost trade solutions to customers. The bank predicts that in the next five years, MDB can achieve a Compound Annual growth rate of 14% on loans and advances. Midland Bank also launched Islamic Banking Window, MDB Saalam from April 2020. MDB is observing very good customer responses from its Islamic Banking window. In the coming years, Islamic Banking will contribute a sizable pie in the bottom line of the Bank.

Keeping all the regulatory ratio within limit and maintaining sound capital base, is the foremost priority of Midland Bank. Though MDB is planning to expand its balance sheet, it predicts that the Bank will be able to maintain Capital to Risk Weighted Asset Ratio (CRAR) within the range of 15%-16% in near future. At the close of 2021, Capital to Risk Weighted Asset Ratio (CRAR) stood at 15.87%, against regulatory requirement of 12.50% including 2.50% capital conservation buffer as per Basel III standard.

## **(z) Technology, market, managerial competence and capacity built-up:**

### **Technology**

Information Technology (IT) is the heart of the banking system in today's world and is now play as the key business enabler and the back-bone of banking industry in Bangladesh. Adopting technological innovations in banking not only made banking transaction more efficient and faster but also enabled banking industry to open up various channels to provide banking service to customers and taking bank to the doorstep of unbanked customers as well. Information Technology (IT) is also changing the supervisory and regulatory landscape of the banking industry. Regulators are introducing IT driven tools for more effective supervision while new supervisory challenges are arising each day with the advent of new technology and new innovation in banking. So the use of information technology in banking is increasing rapidly. The banking industry is evolving very quickly from the traditional brick and mortar banks to digital banks. As the internet era expanded, the banking channels and models have gone a long way far beyond the human imagination. The internet has opened the gates towards digital transformation and innovation and completely revolutionized the banking industry by empowering banks to serve their customers in a better way thereby reducing costs and improving banking experience. Understanding the changing scenario, MDB has already started initiatives for digitalization of its services on a focus to offer simple but secured banking to its customers. Core Banking System (CBS), is the backbone of today's banking activities which MDB upgraded in the year 2019 to fulfill the customer needs in more efficient manner. This allows the Bank to launch diversified deposit and lending products and other banking services to meet wide ranging requirement of all segments of customer. Also through automation and robustness of the processes, MDB ensures transparency, accuracy and security of the services of the Bank. MDB has adopted a 'Digital First' mindset - putting digital at the heart of the business - an effective way to redefine relationship with the customers. MDB believes, by having a truly digital business, it can move away from reactive, transaction-based customer relationships, towards a more intimate, proactive and personalized experience, across multiple channels, products and services. Consequently, the bank is connected with modern payment systems of country and introduced technology enabled systems, expediting digital experience of the clients, keeping them abreast of changing scenarios. To connect the customers more with digital currency, MDB has updated, secure and robust internet banking platform with enhanced features. MDB has made an arrangement with bKash, the largest Mobile wallet service in the country, to transfer money from customer's bank account. The new feature has added value with the current features getting account statement, maintain inter & intra bank fund transfer, pay utility and credit card bills. MDB has introduced its operations from new DR site located at Mirpur, which was equipped with world renowned, latest and sophisticated devices and technology to run the banking services. MDB has also implemented secure and reliable communication channel with scalable, redundant and load balanced architecture to ensure highest level of availability. Secure communication channel is maintained to ensure security of the bank. Network zones are efficiently managed, the access in the networks are monitored and maintained strictly.

### **Market for products or service**

The issuer company offers different types of deposit and loan products through the branches and sub-branches within the territory of Bangladesh.

## SECTION: VII MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### (a) Overview of business and strategies:

Midland Bank Limited was incorporated on 20 March 2013 under the Companies Act 1994 as a Public Limited Company with an authorized capital of BDT 10,000 million and paid-up capital of BDT 4,000 million. The Bank started its commercial operation on 20 June 2013 with a corporate slogan "bank for inclusive growth". Entitled to carry out all types of commercial banking activities, MDB stepped in the industry through Dilkusha Corporate Branch in Dhaka. Since then, the Bank has been constantly expanding far and wide in both network and business. At present, the Bank has a total of 36 Branches (17 Urban Branches and 19 Rural Branches), 16 Sub Branches, 57 ATMs, 107 Agent Banking Centers (ABCs) and 10 Collection Booths across the country. Over a short span of time, the Bank has emerged as a dignified banking partner in the market having ensured an easy banking access to customers through internet banking, alternative delivery channels (ADC), mobile Apps, IT backed products and globally accessible Debit, Credit and Prepaid VISA cards. The Bank maintained a satisfactory level of growth of its assets and liabilities in spite of all challenges during the year 2020. To achieve its vision, mission and strategic priorities, the Bank is committed to maintaining the highest level of ethical standards and customer charter. With steady focus on increasing profitability, inclusive growth, capital strength and deep respect for the community, MDB is well positioned to become one of the country's leading new generation bank soon. Taken together with the whole nation, MDB wants to grow and prosper. The Bank also provides Off-shore banking services through its Off-shore banking unit (OBU) and Islamic banking services through its Islamic banking window (MDB Saalam).

#### Principal activities of the Bank:

The principal activities of the Bank include conventional banking and related businesses. The range of banking business comprises deposit mobilization, cash deposit and withdrawal, extending credit facilities to institutional and corporate, micro, small and medium enterprise (MSME), retail business, trade financing, project financing, organizing syndication deals, lease & hire purchase financing, issuance of credit card, remittance services and many other financial activities within the framework of regulatory guidelines.

#### Business Strategy:

The strategic action plans for the Bank towards reinforcement of the financial fundamentals are as under:

- Diversification of credit portfolio across the MSME, Retail Business, Agriculture, Trade Financing, Project Financing and Financial deals under Syndication.
- In the changed context top-notch priority to be accorded for bringing down the cost of deposit to a reasonable extent by exploring all the avenues specially by giving renewed focus on mobilization of low cost and no cost deposits.
- To avail refinancing facilities to the maximum possible extent both from the liquidity and profitability perspective.
- To take proactive measures for keeping the credit portfolio performing to the optimum level by reining in the growth of NPLs alignment and realignment of credit portfolio in the right perspective and in terms of sectoral and segment wise risk appetite on the basis of ground realities.
- Attachment of priority to ramify the network of services across the rural areas to derive demographic dividend in the best possible way.
- Qualitative improvement of IT infrastructure for ensuring maximum extent of cost and operational efficiency.
- Improve deposit mix by increasing low cost and no-cost deposits in total deposits.
- Increase the non-funded business and non-funded income (Commission, Exchanges & Fee based income).

- Attachment of adequate importance on maintenance of sound liquidity base through minimization of risk out of asset-liability mismatch.
- Increase inward remittance through expansion of domestic networks for the beneficiaries through strategic alliances and introducing new products to attract NRB customers.
- Maintain strong capital base and strengthen Internal Capital Adequacy Assessment Process (ICAAP) by accelerating borrowers' rating and concentrating on lending portfolio having lower capital charge.
- Improve human resources management system to motivate and retain the performing workforce and transform into human assets through appropriate and extensive training and learning culture.
- Strengthen internal control & compliance and monitoring thereon.
- Introduce in-depth research for developing brand strategy to create an optimum brand value.
- Control of cost at every level of operations by attaining budgetary goals.

**Year-2019:** Interest expenses increased by 17.13% over the preceding year because of deposits and borrowing increased by 10.98% and 125.28% respectively, as well as increased of deposit rates.

**Year-2020:** Interest expenses decreased by 7.90% over the preceding year, due to decreasing deposit rates by implementation of regulatory instruction.

**Year-2021:** Interest expenses decreased by 17.67% over the preceding year, due to the lower Interest expense on Deposit and Other Accounts & Interest expense on Borrowing from other Banks and Financial Institutions in comparison to the previous year.

**Reasons for changes in investment income:**

**Year-2017:** Investment income decreased by 17.41% over the preceding year, due to lowering the yield rates on Government Treasury Bill and Bond.

**Year-2018:** Investment income decreased by 35.90% over the preceding year, due to lowering the yield rates on Government Treasury Bill and Bond.

**Year-2019:** Investment income increased by 5.17% over the preceding year because of investment increased by 88.98%, but lowering the yield rates.

**Year-2020:** Investment income increased by 140.95% over the preceding year because of good number of capital gain earned from Government Treasury Bill and Bond as well as increased of investment by 15.14% over last year.

**Year-2021:** Investment income decreased by 13.23% over the preceding year due to the loss arising from Govt. Security Trading.

**Reasons for changes in commission, exchange and brokerage:**

**Year-2017:** Commission, exchange and brokerage income increased 81.95% over the preceding year because of export and import increased by 142.42% and 3.88% respectively.

**Year-2018:** Commission, exchange and brokerage income increased 32.38% over the preceding year because of export increased by 14.94%.

**Year-2019:** Commission, exchange and brokerage income decreased marginally 0.01% because of decreasing rate of commission on overall import-export business.

**Year-2020:** Commission, exchange and brokerage income decreased 13.85% over the preceding year, due to impact of Covid-19 pandemic during the year.

**Year-2021:** Commission, exchange and brokerage income decreased by 18.94% over the preceding year, due to the lower exchange gain compared to previous year.

**Reasons for changes in other operating income:**

**Year-2017:** Other operating income increased by 58.10% compared to previous year due to increase export-import and number of account.

**Year-2018:** Other operating income increased by 28.15% compared to previous year due to increase export-import and number of account.

**Year-2019:** Other operating income increased by 1.01% compared to previous year due to increasing number of accounts.

**Year-2020:** Other operating income increased by 1.98% compared to previous year due to increasing number of accounts.

**Year-2021:** Other operating income increased by 26.26% compared to previous year due to increasing number of accounts.

**Reasons for changes in total operating expenses:**

**Year-2017:** Operating expenses increased by 0.61% compared to previous year due to expansion of business and Branch network.

**Year-2018:** Operating expenses increased by 16.61% compared to previous year due to expansion of business and Branch network.

**Year-2019:** Operating expenses increased by 6.98% compared to previous year due to expansion of business and Branch network.

**Year-2020:** Operating expenses increased by 5.75% compared to previous year due to expansion of business and Branch network.

**Year-2021:** Operating expenses decreased by 3.36% compared to previous year due to lower salary and allowance expense than that of preceding year.

**Reasons for changes in net profit before & after tax, EPS:**

**Year-2017:** Net profit before & after tax increased by 6.77% and 3.50% respectively compare to previous year due to increasing the loan portfolio and earned a good quantity of tax exempted capital gain.

**Year-2018:** Net profit before tax increased by 6.86% and Net profit after tax decreased by 3.50% compared to previous year due to increasing the loan portfolio and earned a good quantity of tax exempted capital gain.

**Year-2019:** Net profit before & after tax decreased by 4.97% and 14.29% respectively compared to previous year due to increased provision for loans & advances by 60.74%.

**Year-2020:** Net profit before tax decreased by 8.69% compared to previous year due to implementation of single digit lending rates @ 9% effective from 1<sup>st</sup> April 2020 in compliance with regulatory instruction. Also kept extra special general provision for COVID-19 as per regulation. A good number of earnings from tax exempted capital gain on sale/revaluation of Government treasury bill/bond positively influenced bank's net profit after tax. As such, net profit after tax and EPS increased over previous year.

**Year-2021:** Net profit before & after tax decreased by and respectively compared to previous year due to increased provision for loans & advances and tax expenses.

**Mr. Ahsan Khan Chowdhury**

**Director**

Ahsan Khan Chowdhury was born in Dhaka, Bangladesh on September 6, 1970. He is the Chief Executive Officer and Chairman of PRAN-RFL Group, one of the leading business conglomerates in Bangladesh. Mr. Chowdhury initially studied in Dhaka and later for higher studies; he went to USA where he graduated from Wartburg College Iowa in 1992.

Mr. Chowdhury started his business career in the family Real State, Food, Plastic and Light engineering business. He worked in all three fields and was extremely successful in making profitable deals for his company. Under his dynamic leadership, PRAN-RFL Group earned extensive acceptability & recognition in Bangladesh as well as globally in a short span of time. Today, it is the fastest growing corporate in Bangladesh, which contributes significantly to the socio economic development of the country. Currently, the group has diversified interest in Agro-processing, Food and Plastic, Light Engineering, Banking etc. The group has its own production facilities in 13 different locations all over Bangladesh. The Group is directly employing over 95,000 people and another 1,500,000 people subsists of PRAN-RFL Group. Over the last 26 years, Mr. Chowdhury's role is instrumental in the success of the Group. By profession he is an entrepreneur, but he is a pioneer on several fronts. He is known as an executive in the fields of sales, marketing and business development. From the start of his career, he had special focus on Sales & Marketing with a strong vision

to make his products and services available in every shop even the remotest parts of the country. He travels all over Bangladesh to build up the strong sales and distribution network. Today, the group occupies a market share of almost 65% of the industry in Bangladesh in spite of the tough competition of the multinational companies.

Mr. Chowdhury strongly believes that in spite of Bangladesh being the world's most densely populated and poorest country, there is a lot of potential for development if given an opportunity. Bangladesh is considered as an agro based country but now with the changing trend the economy is rapidly developing to market based economy and thus it is emerging as a strong and competitive industrial based country. Bangladesh is endowed with vast human resource in the world and if properly utilized, they can prove to be most valuable asset for the development of the economy.

After winning the hearts of millions in Bangladesh, Mr. Chowdhury focused on export market. ## SECTION: XV VALUATION REPORT OF SECURITIES PREPARED BY THE ISSUE MANAGER

The valuation report of securities shall be prepared on the basis of the financial and all other information pertinent to the issue. The fair value is determined under different valuation methods referred in Rule No. 4(2)(a)(i) and Annexure-E(B)(14) of Bangladesh Securities and Exchange Commission (Public Issue) Rules, 2015. We have covered both the Qualitative Factors and the Quantitative Factors while determining the fair value of securities.

### Qualitative Factors:

- i. Midland Bank Limited (MDB) started its commercial operation on June 20, 2013 with a corporate slogan "bank for inclusive growth" entitled to carry out all types of commercial banking activities, MDB stepped in the industry through Dilkusha Corporate Branch in Dhaka. Since then, the Bank has been constantly expanding far and wide in both network and business. Presently, the Bank has a total 35 Branches (16 Urban Branches and 19 Rural Branches), 13 Sub Branches, 51 ATMs, 100 Agent Banking Centers (ABCs) and 10 Collection Booths covering commercially important locations across the country.
- ii. Over a short span of time, MDB has emerged as a dignified banking partner in the market having ensured an easy banking access to customers through internet banking, alternative delivery channels (ADC), Mobile Apps, IT backed products and globally accessible Debit, Credit and Prepaid VISA cards. The Bank is maintaining a satisfactory level of growth of its assets and liabilities in spite of all challenges.
- iii. To achieve its vision, mission and strategic priorities, the Bank is committed to maintain the highest level of ethical standards and customer charter. With steady focus on increasing profitability, inclusive growth, capital strength and deep respect for the community, MDB is well positioned to become one of the country's leading new generation Bank soon.
- iv. In 2019, the Bank also got Islamic banking window license to operate Islamic banking activities across the country through its branch & sub-branch networks under a separate Islamic banking module. The Bank has set up its Shariah Supervisory Council and started the Islamic banking activities successfully in the name & style "MDB Saalam" under the supervision of Islamic banking window at Gulshan Branch.
- v. The Bank has been granted license for Off-shore banking which will help expand the foreign exchange related business supporting the clients with their foreign trade and foreign Currency need. The bank has successfully launched Off-shore banking activities from June 20, 2020.
- vi. MDB has established correspondent relationship all over the world with a number of foreign Banks. The Bank continues to follow the needs and business opportunities of its clients. The Bank maintains 15 (Fifteen) Nostro Accounts in four major international currencies and ACU currency with reputed international Banks in the major financial centers around the globe, for settlement of trade finance and all other customer driven transactions denominated in foreign currency.
- vii. There are 60 scheduled banks in Bangladesh who operate under full control and supervision of Bangladesh Bank which is empowered to do so through Bangladesh Bank Order, 1972 and Bank Company Act, 1991. The banking sector's contribution to GDP in FY-2017, FY-2018, FY-2019 and FY-2020 (provisional) grew by 9.95%, 8.51%, 7.38% and 4.19% respectively. The banking sector's share of GDP in FY-2018, FY-2019 and FY-2020 (provisional) was 2.97%, 2.95% and 2.91% respectively.

### Quantitative Factors:

Fair value of securities is determined under different valuation methods as referred in Rule No. 4(2)(a)(i) and Annexure-E(B)(14) and of Bangladesh Securities and Exchange Commission (Public Issue) Rules, 2015:

## SECTION: XX RISK FACTORS AND MANAGEMENT'S PERCEPTIONS ABOUT THE RISKS

- (a) All risk factors which are specific to the project and internal to the issuer and those which are external and beyond the control of the issuer and all qualitative or quantitative risks those may not be material at present but may have a material impact in future have been included.
- (b) Risk factors have been disclosed in descending order of materiality stating the financial and other implications, where applicable.
- (c) Perceptions to address risks don't contain any speculative statement on the positive outcome of any litigation, etc. and haven't been given for any matter that is sub-judice before any Court or Tribunal.
- (d) The disclosures regarding risk factors are as follows: -

### (I) Internal Risk Factors:

#### (a) Credit Risk:

Credit risk is the risk of financial loss due to a borrower or counterparty failing to meet its obligations in accordance with contractual terms.

#### Management Perception

*The management of MDB believes that effective management of credit risk requires the establishment of an appropriate credit risk culture. As a result the Board of Directors, either directly or through the Risk Committee regularly reviews and approves the Bank's credit risk appetite credit policy. Exposure to a single customer or group of related parties, country risk (exposure limits to control transfer/cross-border and sovereign default risks), industry concentrations (exposure and risk adjusted concentration limits) are regularly monitored to mitigate credit risk of MDB.*

#### (b) Liquidity Risk:

The risk that a company may be unable to meet short term financial obligation. This usually occurs due to the inability to convert its current assets to cash without a loss of capital or income in a given period of time.

#### Management Perception

*In order to mitigate liquidity risk, the management of MDB hold appropriate levels of unencumbered high quality liquid assets that can be readily sold or pledged; placed limits to control the maximum net cash outflow over specified short term horizon; and maintains a diversified funding source, type of depositor, instrument, term and geographic market.*

#### (c) Risk associated with the Issuer's interest in subsidiaries, joint ventures and associates:

Performance of subsidiaries, joint ventures and associates have direct impact on the interest of their parents. If the subsidiaries, joint ventures and associates perform well, parents will be benefited and vice-versa. As future performance of subsidiaries, joint ventures and associates can go wrong than expected, there is always a risk that the interest of the parent may be affected negatively.

#### Management Perception

*MDB has no subsidiaries, joint ventures or associates. So, there is no such risk for the issuer.*

**d) Significant revenue generated from limited number of customers, losing any one or more of which would have a material adverse effect on the issuer.**

Dependency on limited number of customers exposes a business to a high level of risk. If a company generate revenue from a few customers, losing any of them may have a material adverse effect on the operating result of the company.

**Management Perception**

*MDB maintains a diversified investment portfolio considering sector wise exposure, division wise exposure, group wise exposure, single borrower wise exposure and top borrower wise exposures etc. and is not depended on a limited number of customers. Moreover, MDB maintains a good relationship with all of its existing and potential customers. There is less chance to lose any customer, considering MDBs reputation and since MDB maintains a well-diversified portfolio, losing (if any) one or more will have very minimal or no effect at banks performance and profitability. So, such risk is well minimized.*

**(e) Dependency on a single or few suppliers of raw materials, failure of which may affect production adversely.**

**Management Perception:**

*No such risk exists due to the nature of the business of MDB.*

**(f) More than 20% revenue of the issuer comes from sister concern or associate or subsidiary**

**Management Perception:**

MDB has no sister concern, associate or subsidiary, hence such risk is not applicable for MDB

**(g) Negative earnings, negative cash flows from operating activities, declining turnover or profitability, during last five years, if any.**

Last five years' results regarding earnings, cash flows from operating activities, turnover or profitability is very important to predict future performance of the company.

**Management Perception:**

*The management has been operating the bank very efficiently and MDB did not experience any negative earnings, any negative cash flow from operating activities, declining turnover or profitability during the last 5 years.*

**(h) Loss making associate/subsidiary/group companies of the issuer.**

Operating performance of associate/subsidiary/group companies has a direct impact on the interest of the parent. So, if there is any loss making associate/subsidiary/group companies of the issuer, it will have a negative impact on the profitability of the issuer.

**Management Perception**

*MDB has no associate, subsidiary or group companies. So, no such risk exists.*

**(i) Financial weakness and poor performance of the issuer or any of its subsidiary or associates**

**Management Perception:**

*MDB has been maintaining a steady growth and profitability over the years. Also, it has no subsidiary or associates. So, there is no risk in this respect*

**(j) Decline in value of any investment.**

Decline in the value of any investment may have negative impact on the profitability and total assets of the issuer.

**Management Perception:**

*MDB has invested in Govt. T Bills, Bonds and other capital market instruments in compliance with the regulation. MDB believes that value of the investment will not impact on the profitability and total assets of the Company significantly since, the major portion of the investment are on various Govt. instruments.*

**(k) Risk associated with useful economic life of plant and machinery, if purchased in second hand or reconditioned.**

**Management Perception:**

*MDB does not have any significant plant and machinery due to the nature of its business. Hence there are less possibility of such type of risk.*

**(l) Adverse effect on future cash flow if interest free loan given to related party or such loans taken from directors may recall.**

**Management Perception:**

*MDB provided loan facilities to institutions related to the Directors, which are interest bearing in nature and very nominal is size in respect of the total portfolio of the bank. Management has obtained confirmation from each of the aforesaid entity and assessed recoverability, upon which satisfied that all these balances are recoverable in full. On the other hand, the Bank has not taken any loan from any of its directors.*

**(m) Potential conflict of interest, if the sponsors or directors of the issuer are involved with one or more ventures which are in the same line of activity or business as that of the issuer and if any supplier of raw materials or major customer is related to the same sponsors or directors.**

**Management Perception:**

*Sponsors or directors of MDB are not involved with any venture which is in the same line of activity or business except for Mr. Hafizur Rahman Sarker, a director of MDB is also the Sponsor Shareholder of the Padma Bank Ltd. and Meghna Bank Limited. No potential conflict exists as Mr. Hafizur Rahman does not hold any position on the board or the management of the two organization.*

**(n) Related party transactions entered into by the company those may adversely affect competitive edge.**

**Management Perception:**

*There are no such significant transactions entered into by MDB with any related party that may adversely affect competitive edge.*

**(o) Any restrictive covenants in any shareholders' agreement, sponsors' agreement or any agreement for debt or preference shares or any restrictive covenants of banks in respect of the loan/ credit limit and other banking facilities.**

**Management Perception:**

*There are no restrictive covenants in any shareholders' agreement, sponsors' agreement or any agreement for debt or preference shares or any restrictive covenants of banks in respect of the loan/ credit limit and other banking facilities.*

**(p) Business operations may be adversely affected by strikes, work stoppages or increase in wage demands by employees.**

**Management Perception:**

*MDB always maintains a good relationship with all of its employees ensuring excellent corporate culture. The company always believes that employees are the key strength of MDB. MDB values its employees and strives to maintain high standard of labor practices to ensure a congenial work environment. MDB also gives competitive compensation and benefits to their employees to motivate them to work.*

**(q) Seasonality of the business of the issuer**

**Management Perception:**

*There is no seasonal impact on the business of the Company due to its nature of business.*

**(r) Expiry of any revenue generating contract that may adversely affect the business**

**Management Perception:**

*MDB has no such revenue generating contract that may adversely affect the business.*

**(s) Excessive dependence on debt financing which may adversely affect the cash flows.**

**Management Perception:**

*MDB has no debt financing hence there is no possibility of such risk.*

**(t) Excessive dependence on any key management personnel absence of whom may have adverse effect on the issuer's business performance.**

**Management Perception:**

*MDB has a strong HR policy and good Corporate Governance in place that focusses on the succession plan to minimize the risk of absence and losing of key personnel, for ensuring uninterrupted business operation.*

**(u) Enforcement of contingent liabilities which may adversely affect financial condition.**

**Management Perception:**

*The management of MDB believes that the enforcement of contingent liability would not have an adverse effect on financial conditions of the company.*

**(v) Insurance coverage not adequately protect against certain risks of damages.**

**Management Perception:**

*As part of the risk management process, MDB has adequate insurance coverage for different risky issues of the business operation.*

**(w) Absence of assurance that directors will continue its engagement with Company after expiry of lock in period.**

**Management Perception:**

*There are 7 nominated directors in the board of MDB, they are subject to change if their nomination changes. All other directors are involved in the business for a long time and plan to continue after the expiry of the lock in period. MDB has a robust corporate governance structure, so any future change in the board structure will not adversely impact the business.*

**(x) Ability to pay any dividends in future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditure.**

**Management Perception:**

*MDB has been maintaining a steady profitability and has positioned itself on a strong foundation which are reflected in all the financial indicators. Management believes that the Company would maintain its growth momentum in future and pay good dividends to the shareholders.*

**(y) History of non-operation, if any and short operational history of the issuer and lack of adequate background and experience of the sponsors.**

**Management Perception:**

*MDB has no history of non-operation in the past. The board of Directors and Management of the company are experienced and competent to run the business. So, the chance of the company becoming non-operative is very less.*

**(z) Risks related to engagement in new type of business, if any.**

**Management Perception:**

*So far, MDB does not have any such plan to enter into new type of business. Hence there is no possibility of such risk.*

**(aa) Risk in investing the securities being offered with comparison to other available investment options.**

**Management Perception:**

*Investment in good securities always gives the investors higher return in terms of dividend and capital appreciation over other available investment options in Bangladesh. Management believe that investment in MDB's shares would give a good return. However, the management of MDB humbly requests potential investors to carefully read the Prospectus and understand the business potential of the Company and assess their own financial condition before making investment decision as investment in capital market involves certain degree of risk.*

**(bb) Any penalty or action taken by any regulatory authorities for non-compliance with provisions of any law.**

**Management Perception:**

*MDB has never been penalized for non-compliance with any provisions of any law during the last five years. Management of MDB is also committed to adhere to all the applicable rules and regulations to avoid any operational risks.*

**(cc) Litigations against the issuer for Tax and VAT related matters and other government claims, along with the disclosures of amount, period for which such demands or claims are outstanding, financial implications and the status of the case.**

**Management Perception:**

*There is no such litigation against the Company for Tax and VAT related matters and other government claims as all Tax and VAT returns are submitted regularly.*

**(dd) Registered office or factory building or place of operation is not owned by the issuer.**

**Management Perception:**

*The registered office of MDB and all the branch offices are either leased or rented on a long term basis, so there is no risk associated with this issue.*

**(ee) Lack of renewal of existing regulatory permissions/ licenses.**

**Management Perception:**

*All the regulatory permission/licenses required for operation of MDB are regularly updated.*

**(ff) Failure in holding AGM or declaring dividend or payment of interest by any listed securities of the issuer or any of its subsidiaries or associates.**

**Management Perception:**

*There is no incident of failure in holding AGM or declaring dividend or payment of interest by the issuer in the last 5 years. MDB does not have any listed subsidiary or associate.*

**(gg) Issuances of securities at lower than the IPO offer price within one year.**

**Management Perception:**

*The Company does not have any intentions to issue securities at a price lower than the IPO offer price within one year.*

**(hh) Refusal of application for public issue of any securities of the issuer or any of its subsidiaries or associates at any time by the Commission.**

**Management Perception:**

*There is no such case of refusal of application for public issue of any securities of MDB by the Commission. MDB does not have any listed subsidiary or associate.*

**(II) External Risk Factors:**

**(a) Interest Rate Risks:**

Interest Rate Risk is the risk, which affects the Bank's financial condition due to change in the market interest rates. The changes in interest rates may affect both the current earnings as well as the net worth of the Bank.

**Management Perception:**

*The interest rate risk is mainly managed as part of MDB's Asset Liability Committee (ALCO). The Asset Liability Management (ALM) Desk is an independent unit within the Treasury Division. The desk meticulously monitors and analyzes cash flows & cash positions, balance sheet gaps, daily profit & loss, economic trends, investment options, arbitrage opportunities, business growth, liquidity & places the facts and findings before the ALCO with its recommendations on a regular basis. The ALCO comprising of the senior management of the bank has been established to make important decisions relating to liquidity, interest rate and balance sheet management.*

*Interest rate risk may arise from trading portfolio and non-trading portfolio also. The trading portfolio of the Bank consists of government treasury bills, bond, etc. The short-term movement in interest rate is negligible or nil. Interest rate risk of non-trading business arises from mismatches between the future yield of an asset and its funding cost. Asset Liability Committee (ALCO) monitors the interest rate movement on a regular basis.*

**(b) Exchange Rate Risks:**

It is the risk that the Bank may suffer losses as a result of adverse exchange rate movement during a period in which it has an open position in an individual foreign currency.

**Management Perception:**

*Exchange rate risk is regularly measured and monitored by the Treasury Division of MDB, to evaluate the extent of foreign exchange risk. A liquidity gap report is prepared for each currency and appropriate steps are taken to mitigate the risk.*

**(c) Industry Risks:**

MDB operates its business in the banking sector of the country. The sector is highly regulated by the government and market demand is growing with strong competition.

**Management Perception:**

*Though MDB operates in a competitive sector, there is also untapped opportunity for growth in the sector as a significant number of population is still outside banking coverage.*

**(d) Economic and Political risks:**

**Economic risks:**

Economic risk is the risk that is associated with the influence of financial and other economic factors on the operation of an entity. Assessment of economic risks is crucial in assessing the overall risk of the business of an entity. Economic risks have a direct impact on the revenues and expenses amount and accordingly the company's profits. Main types of economic risks include risk of rising prices for raw materials and energy, risk of minimum wages increasing, risk of higher taxes and duties rates, etc.

**Political risks:**

Political risk refers to the risk that an entity's returns could suffer as a result of political changes or instability in a country. Instability affecting returns could stem from a change in government, legislative bodies, other foreign policy makers or military control. Political risks are extremely hard to quantify because there are limited sample sizes or case studies when discussing a particular country. Some political risks can be insured against through international agencies. The outcome of a political risk could drag down returns or even go so far as to remove the ability to withdraw capital from an investment. Any instance of political turmoil and disturbance in the country may adversely affect the economy in general.

**Management Perception:**

*The economy of Bangladesh is booming. Consistent industrial growth along with increased industrial production has made the per capita income higher than that of recent years. Political risk is beyond the control of the issuer, so the management of MDB has adequate strategies in place to reduce the effect of such risks.*

**(e) Market and Technology-related Risks:**

Market and technology-related risks arise as the demand for more efficient and cost effective technology may render the existing technology obsolete, which may negatively impact the performance of the company.

**Management perception:**

*The management believes that Information Technology (IT) is the heart of the banking system in today's world and act as key business enabler and back-bone of banking industry in Bangladesh. MDB has established a robust ICT risk management system where risks related to cyber-attack, system collapse, unauthorized electronic fund transfer, internet banking facility and data storage infrastructure are regularly monitored with a strong contingency and disaster recovery plan. MDB is keen to adapt new technology to provide not only a better experience to its clients, making banking transaction more efficient and faster but also taking MDB to the doorstep of unbanked customers and remain competitive in the market.*

**(f) Potential or existing government regulations:**

Companies of Bangladesh operates under various laws like The Bank Companies Act, 1991, taxation related laws and rules, rules of Bangladesh Bank and Bangladesh Securities and Exchange Commission etc. Any abrupt changes of the policies formed by those bodies may impact the business of the company adversely.

**Management perception:**

*The management of MDB believes that it is highly unlikely that the government will initiate any measure that will have an adverse effect on the growth of the industry.*

**(g) Potential or existing changes in global or national policies;**

The performance of companies may be affected by potential and existing changes in policies both in Bangladesh and worldwide.

**Management perception:**

*Changes in the existing global or national policies can have either a positive or negative impact on the company and the industry. Financial and operational strength of the company has shown a steady and sustainable progress by now and the company is capable of handling considerable threats. Moreover, the company has adequate system and procedures in place to tackle such events.*

**(h) Statutory clearances and approvals those are yet to be received by the issuer:**

**Management Perception:**

*The company has received all the statutory clearances and approvals that are required to operate the business. A list of licenses of the Company has been disclosed in Section VI - "DESCRIPTION OF THE ISSUER" of the Prospectus. The necessary updating and renewal is a continuous process. Hence, there is a limited degree of such risk associated with the company.*

**(i) Competitive condition of the business:**

A company of a particular sector might have to face stiff competition from its competitors. Easily availability of global products in the local markets accelerates the competition, challenging the profitability of the business.

**Management Perception:**

*MDB has been successfully navigating through the competitive condition of the market with its vigilant leadership and customer centric approach to meet customer expectation in terms of creating new value added services for its clients.*

**(j) Complementary and supplementary products/services which may have an impact on business of the issuer.**

**Management Perception:**

*At present, complementary and supplementary products/ services did not have any considerable impact on the business of MDB. The management of MDB has always been innovative and if required MDB may diversify its products as and when necessary to have a competitive edge over its competitors.*

**SECTION: XXVI FINANCIAL STATEMENTS**

**(a) AUDITORS' REPORT TO THE SHAREHOLDERS OF MIDLAND BANK LIMITED FOR THE YEAR ENDED DECEMBER 31, 2021**

**Independent auditor's report  
To the shareholders of Midland Bank Limited  
Report on the audit of financial statements**

**Opinion**

We have audited the financial statements of Midland Bank Limited ("the Bank"), which comprise the balance sheet as at 31 December 2021, and the profit and loss account, cash flow statement, statement of changes in equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements of the Bank give a true and fair view of the balance sheet of the Bank as at 31 December 2021, and of its profit and loss account, its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS) as explained in note # 2 and comply with the Company Act, 1994, the Bank Company Act, 1991 (as amended up to date), rules and regulations issued by Bangladesh Bank and other applicable laws and regulations.

**Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (ISA). Our responsibilities under those standards are further described in the auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and the requirements of Bangladesh Bank, and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the Institute of Chartered Accountants of Bangladesh (ICAB) Bye Laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Other information**

Management is responsible for the other information. The other information comprises all the information other than the financial statements and our auditors' report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

**Responsibilities of management and those charged with governance for the financial statements and internal controls**

Management is responsible for the preparation and fair presentation of the financial statements of the Bank in accordance with IFRS as explained in note # 2, and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error. The Bank Company Act, 1991 (as amended up to date) and the Bangladesh Bank Regulations require the management to ensure effective internal audit, internal control, and risk management functions of the Bank. The management is also required to make a self-assessment on the effectiveness of anti-fraud internal controls and report to Bangladesh Bank on instances of fraud and forgeries.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## Report on other legal and regulatory requirements

In accordance with the Company Act, 1994, the Bank Company Act, 1991 (as amended up to date), and the rules and regulations issued by Bangladesh Bank, we also report that:

- (i) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- (ii) To the extent noted during the course of our audit work performed on the basis stated under the Auditor's Responsibility section informing the above opinion on the financial statements of the Bank and considering the reports of the management to Bangladesh Bank on anti-fraud internal controls and instances of fraud and forgeries as stated under the management's responsibility for the financial statements and internal control:
  - (a) internal audit, internal control, and risk management arrangements of the Bank as disclosed in the financial statements appeared to be materially adequate;
  - (b) nothing has come to our attention regarding material instances of forgery or irregularity or administrative error and exception or anything detrimental committed by employees of the Bank.
- (iii) In our opinion, proper books of accounts as required by law have been kept by the Bank so far as it appeared from our examination of those books;
- (iv) The records and statements submitted by the branches have been properly maintained and consolidated in the financial statements;
- (v) The balance sheet and profit and loss account together with the annexed notes dealt with by the report are in agreement with the books of account and returns;
- (vi) The expenditures incurred were for the purpose of the Bank's business for the period ended;
- (vii) The financial statements of the Bank have been drawn up in conformity with prevailing rules, regulations, and accounting standards as well as related guidance issued by Bangladesh Bank;
- (viii) Adequate provisions have been made for advance and other assets which are in our opinion, doubtful of recovery;
- (ix) The information and explanations required by us have been received and found satisfactory;
- (x) We have reviewed over 80% of the risk-weighted assets of the Bank and spent over 2,000 person-hours for the audit of the books and accounts of the Bank; and
- (xi) Capital to Risk-weighted Asset Ratio (CRAR) as required by Bangladesh Bank has been maintained adequately during the period.

#### **2.01.02 Statement of Compliance**

The Financial Reporting Act 2015 (FRA) was enacted in 2015. Under the Act, the Financial Reporting Council (FRC) was formed and it is yet to issue any financial reporting standards for public interest entities like Banks, NBIFs, Insurance, etc. According to the Bank Company Act 1991 as amended time to time required the Banks to prepare their financial statements under such financial reporting standards. Since the FRC yet to issue any financial reporting standards as per the provisions of the FRA, hence the International Financial Reporting Standards (IFRS) as adopted by the Institute of Chartered Accountants of Bangladesh (ICAB) are still applicable.

The financial statements of the Bank have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by ICAB, "First Schedule (Section 38) of the Bank Company Act 1991 (Amended upto 2018), BRPD circular no. 14 dated 25 June 2003 and DFIM Circular no. 11, dated December 23, 2009, etc., other regulatory guideline. The Bank complied with the requirements of the following rules and regulation:

The Bank Companies Act, 1991 (Amended upto 2018), The Companies Act 1994, Rules, regulations and circulars issued by the Bangladesh Bank from time to time. The Securities and Exchange Ordinance 1969, Bangladesh Securities and Exchange Commission Act 1993, Bangladesh Securities and Exchange Commission Rules 2020, Bangladesh Securities and Exchange Commission (Public Issues) Rules 2015, Income Tax Ordinance and Rules 1984, Value Added Tax Act 1991, Value Added Tax and Supplementary Duty Act, 2012 and Financial Reporting Act 2015.

In addition to foregoing directives and standards, the operation of Islamic banking windows, are accounted for in accordance with Financial Accounting Standards issued by the Accounting and Auditing Organization for Islamic Financial Institutions, Bahrain, and BRPD circular no. 15, dated November 09, 2009. The operation of Off-shore banking unit are also accounted for in accordance with Financial Reporting Standards issued by ICAB. A separate balance sheet, profit & loss account and a statement of profit are shown in Annexure - G & H, respectively, and the figures appearing in the annexure have been incorporated in the related heads of these financial statements as recommended by the central shariah board for Islamic Banks in Bangladesh.

This is the 2nd time to set off the Bank's annual financial statements in which IFRS-16 "Leases" has been applied effective from 1 January 2020. The related changes to significant accounting policies and its affect are described in note 2.02.11.

#### **2.01.03 Difference between IAS/IFRS and Bangladesh Bank regulations**

The financial statements of the Bank have been prepared as on 31 December 2021 under the historical cost basis, except for certain investments which are stated at fair/market value, in accordance with the First Schedule (Section 38) of the Bank Company Act 1991 (Amended upto 2018), BRPD Circular # 14, dated 25 June 2003 and DFIM Circular # 11, dated 23 December 2009, other Bangladesh Bank circulars, IAS and IFRS as adopted by ICAB, the Companies Act 1994, and other laws and rules applicable in Bangladesh. In case, any requirement of provisions and circulars issued by Bangladesh Bank differs with those of other regulatory bodies, the provisions and circulars issued by Bangladesh Bank shall prevail. In order to comply with the rules and regulations of Bangladesh Bank, MDB departed from those contradictory requirements of IFRS/IAS, which are disclosed below.

**i. Presentation of financial statements**

**IFRS:** As per IAS-1, a complete set of financial statements comprises statement of financial position (balance sheet), statement of profit and loss, statement of changes in equity, statement of cash flows, notes comprising a summary of significant accounting policies and other explanatory information and comparative information. IAS-1 has also stated the entity to disclose assets and liabilities under current and non-current classification separately in its statement of financial position.

**Bangladesh Bank:** The presentation of these financial statements in prescribed format (i.e. balance sheet, profit and loss account, cash flow statement, statement of changes in equity, liquidity statement) and certain disclosures therein are guided by the First Schedule (section-38) of the Bank Companies Act, 1991 (Amended upto 2018) and BRPD circular no. 14 dated 25 June 2003 and subsequent guidelines of Bangladesh Bank. In the prescribed format there is no option to present assets and liabilities under current and non-current classification.

**ii. Investment in shares, mutual fund and other securities**

**IFRS:** As per requirements of IFRS-9, classification and measurement of investment in shares and securities will depend on how these are managed (the entity's business model) and their contractual cash flow characteristics. Based on these factors it would generally fall either under "at fair value through profit and loss account" or under "at fair value through other comprehensive income" where any change in the fair value (as measured in accordance with IFRS 13) at the year-end is taken to profit and loss account or other comprehensive income respectively.

**Bangladesh Bank:** As per BRPD circular no. 14 dated 25 June 2003 investments in quoted and unquoted shares are revalued on the basis of year-end market price and Net Assets Value (NAV) of last audited balance sheet, respectively. As per instruction of DOS circular letter no. 3 dated 12 March 2015, investment in mutual fund (close-end) is revalued at lower of cost and higher of market value and 85% of NAV and another DOS circular letter no. 10 dated 28 June 2015, investment in mutual fund (open-end) is revalued at lower of cost and higher of market value and 95% of NAV. As such, provision is made for any loss arising from diminution in value of investments (portfolio basis); otherwise investments are recognised at costs.

**iii. Revaluation gain/loss on government securities**

**IFRS:** Government securities refer primarily various debt instruments which include both bonds and bills. As per requirements of IFRS-9 Financial Instruments, bonds can be categorised as "Amortised Cost (AC)" or "Fair Value through profit and loss account (FVTPL)" or "Fair Value through other comprehensive income (FVOCI)". Bonds designated as amortised cost are measured at amortised cost method and interest income is recognised through profit and loss account. Any changes in fair value of bonds designated as FVTPL is recognised in profit and loss account. Any changes in fair value of bonds designated as FVOCI is recognised in other reserve as a part of equity.

As per requirement of IFRS-9 where securities will fall under the category of fair value through profit and loss account, any change in the fair value of assets is recognised through the profit and loss account. Securities designated as amortized cost are measured at effective interest rate method and interest income is recognised through the profit and loss account.

**Bangladesh Bank:** Held for Trading (HFT) securities are revalued on the basis of mark to market on weekly basis and any gains on revaluation of securities which have not matured at the balance sheet date are recognized in other reserves as a part of equity and any losses on revaluation of securities which have not matured at the balance sheet date are charged in the profit and loss account. Interest on HFT securities including amortization of discount are recognized in the profit and loss account. HTM securities which have not matured at the balance sheet date are amortized at the year end and any losses are recognized through profit and loss account and gains on amortization are recognized in other reserve as part of equity.

**iv. Repo and reverse repo transactions**

**IFRS:** As per IFRS-9 when an entity sells a financial asset and simultaneously enters into an agreement to repurchase the asset (or a similar asset) at a fixed price on a future date (repo), the arrangement is treated as a loan and the underlying asset continues to be recognised at amortised cost in the entity's financial statements. The difference between selling price and repurchase price will be treated as interest expense. The same rule applies to the opposite side of the transaction (reverse repo).

**Bangladesh Bank:** As per Department of off-site supervision (DOS) circular letter no. 06 dated 15 July 2010 and subsequent clarification in DOS circular no. 02 dated 23 January 2013, when a bank sells a financial asset and simultaneously enters into an agreement to repurchase the asset (or a similar asset) at a fixed price on a future date (repo or stock lending), the arrangement is accounted for as a normal sales transaction and the financial asset is derecognised in the seller's book and recognised in the buyer's book.

However, as per Debt Management Division (DMD) circular letter no. 7 dated 29 July 2012, non-primary dealer Banks are eligible to participate in the Assured Liquidity Support (ALS) programme, whereby such Banks may enter collateralized repo arrangements with Bangladesh Bank. Here the selling Bank accounts for the arrangement as a loan, thereby continuing to recognize it as asset.

**v. Provision on loans and advances/investments**

**IFRS/IAS:** As per IFRS-9 an entity shall recognize an impairment allowance on loans and advance/investments based on expected credit losses. At each reporting date, an entity shall measure the impairment allowance for loans and advances/investments at an amount equal to the lifetime expected credit losses, if the credit risk on these loans and advances/investments has increased significantly since initial recognition whether assessed on an individual or collective basis considering all reasonable information, including that which is forward looking. For those loans and advances/investments for which the credit risk has not increased significantly since initial recognition, at each reporting date, an entity shall measure the impairment allowance at an amount equal to 12 month expected credit losses that may result from default events on such loans and advances/investments that are possible within 12 months after reporting date.

**Bangladesh Bank:** As per BRPD circular No.14, 23 September 2012, BRPD circular No. 19, 27 December 2012, BRPD circular No. 05, 29 May 2013, BRPD circular No. 16, 18 November 2014, BRPD circular no (P-1)/661/13/2021-12262, 27 December 2021, BRPD circular 50, 14 December 2021 and BRPD circular 52, 29 December 2021, a general provision at 0.25% to 5% under different categories of unclassified loans/investments (good/standard/SMA loans) has to be maintained regardless of objective evidence of impairment. Also provision for sub-standard, doubtful and bad losses has to be provided at 20%, 50% and 100%, respectively for loans and advances/investments depending on the duration of overdue. Again, as per BRPD circular no. 10, dated 18 September 2007 and BRPD circular no. 14, dated 23 September 2012, a general provision at 1% is required to be provided for all off-balance sheet exposures excluding bills for collection. Such provision policies are not specifically in line with those prescribed by IAS-39.

**vi. Recognition of interest in suspense**

**IFRS:** Loans and advances/investments to customers are generally classified at amortized cost as per IFRS-9 and interest income is recognised by using the effective interest rate method to the gross carrying amount over the term of the loans/investments. Once a loan/investments subsequently become credit-impaired, the entity shall apply the effective interest rate to the amortized cost of these loans and advances/investments.

**Bangladesh Bank:** As per BRPD circular no. 14, dated 23 September 2012, once a loan/investment is classified, interest on such loan/investment is not allowed to be recognized as income, rather the corresponding amount needs to be credited to an "Interest Suspense Account", which is presented as liability in the balance sheet.

**vii. Other comprehensive income**

**IFRS/IAS:** As per IAS-1 other comprehensive income (OCI) is a component of financial statements or the elements of OCI are to be included in a single other comprehensive income statement.

**Bangladesh Bank:** The templates of financial statements issued by Bangladesh Bank do not include the other comprehensive income, nor are the elements of other comprehensive income allowed to be included in a single other comprehensive income (OCI) statement. As such, the Bank does not prepare other comprehensive income statement. However, elements of OCI, if any, are shown in the statements of changes in equity.

**viii. Financial instruments – presentation and disclosure**

In several cases Bangladesh Bank guidelines categories, recognize, measure and present financial instruments differently from those prescribed in IFRS-9. As such, full disclosure and presentation requirements of IFRS-7 and IAS-32 cannot be made in the financial statements.

**ix. Financial guarantees**

**IFRS/IAS:** As per IFRS-9, financial guarantees are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument. Financial guarantee liabilities are recognised initially at their fair value plus transaction costs that are directly attributable to the issue of the financial liabilities. The financial guarantee liability is subsequently measured at the higher of the amount of loss allowance for expected credit losses as per impairment requirement and the amount initially recognised less, income recognised in accordance with the principles of IFRS 15. Financial guarantees are included within other liabilities.

**Bangladesh Bank:** As per BRPD circular no.14, financial guarantees such as letter of credit, letter of guarantee will be treated as off-balance sheet items. No liability is recognized for the guarantee except the cash margin. 1% provision is maintained on such off-balance sheet items, excluding bills for collection as per guidelines of Bangladesh Bank.

**x. Cash and cash equivalents**

**IFRS/IAS:** Cash and cash equivalent items should be reported as cash item as per IAS-7.

**Bangladesh Bank:** Some cash and cash equivalent items such as ‘money at call on short notice’, treasury bills, Bangladesh Bank bills and prize bond are not shown as cash and cash equivalents. Money at call on short notice presented on the face of the balance sheet, and treasury bills/bonds and prize bonds are shown as investments.

**xi. Non-banking assets**

**IFRS/IAS:** No indication of non-banking assets is found in any IFRS/IAS.

**Bangladesh Bank:** As per BRPD 14, there must exist a face item named Non-banking assets.

**xii. Cash flow statement**

**IFRS/IAS:** As per IAS-7, cash flow statement can be prepared using either the direct method or the indirect method. The presentation is selected to present these cash flows in a manner that is most appropriate for the business or industry. The method selected is applied consistently.

**Bangladesh Bank:** As per BRPD circular no.14, cash flow statement has been guided by the Bangladesh Bank which is the mixture of direct and indirect method.

**xiii. Balance with Bangladesh Bank: (Cash Reserve Ratio-CRR)**

**IFRS/IAS:** Balance with Bangladesh Bank should be treated as other asset as it is not available for use in day to day operations as per IAS-7.

**Bangladesh Bank:** Balance with Bangladesh Bank is treated as cash and cash equivalents.

**xiv. Presentation of intangible assets**

**IFRS/IAS:** An intangible asset must be identified, recognized and disclosure must be given as per IAS-38.

**Bangladesh Bank:** There is no regulation/guideline for identify, recognize and disclosure of intangible assets in the BRPD circular no.14.

**xv. Off-balance sheet exposer**

**IFRS/IAS:** There is no concept of off-balance sheet items in any IFRS/IAS. Hence, there is no requirement for disclosure of off-balance sheet items on the face of the balance sheet.

**Bangladesh Bank:** As per BRPD circular no.14, off balance sheet items (e.g. Letter of credit, Letter of guarantee, etc.) must be disclosed separately on the face of the balance sheet and 1% provision has to be maintained on it as guided by the regulator.

**xvi. Disclosure of appropriation of profit**

**IFRS/IAS:** There is no requirement to show appropriation of profit on the face of income statement.

**Bangladesh Bank:** As per BRPD circular no. 14, an appropriation of profit should be disclosed separately on the face of the profit and loss account.

**xvii. Loans and advances/investments net of provision**

**IFRS/IAS:** Loans and advances/investments should be presented net of provision.

**Bangladesh Bank:** As per BRPD 14, provision on loans and advances/investments are presented separately as liability and cannot be netted off against loans and advances/investments.

**xviii. Recovery of written off loans and advances/investments**

**IFRS/IAS:** As per IAS 1 an entity shall not offset assets and liabilities, or income and expenses, unless required or permitted by IFRS/IAS. The recovery of written off loans/investments should be charged to the profit and loss account as per IFRS 15.

**Bangladesh Bank:** As per BRPD circular no.14, recoveries of amount previously written off should be adjusted with specific provision on loans and advances/investments.

**xix. Uniform accounting policy**

**IFRS/IAS:** As per Para 19 of IFRS-10, a company shall prepare financial statements using uniform accounting policies for like transactions and other events in similar circumstances.

**BSEC:** As per guideline of Bangladesh Securities and Exchange Commission (BSEC), Bank has to keep adequate provision on diminution value of investments and certain provision has to be made on impairment of clients' margin loans/investments.

#### 2.01.04 Use of estimates and judgments

In preparation of the financial statements, management required to make judgments, estimates and assumptions that affect the application of accounting policies and reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed considering business realities on a going concern basis. Revision to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. The most significant areas where estimates and judgments have been applied to the following:

- Provision for loan and advances/investments- as explained in note # 2.02.02.(d)
- Income tax - as explained in note # 2.04.05
- Deferred tax assets/liabilities - as explained in note # 2.04.06
  
- Employee benefit -as explained in note # 2.04.07
- Useful lives of depreciable assets regard to non-current assets - as stated below:

Asset Category	Depreciation Rate	Useful Life
Computer & Peripherals	20%	5 Year
Furniture & Fixture	10%	10 Year
Office Equipment	20%	5 Year
Motor Vehicles	20%	5 Year
Books	20%	5 Year
Intangible Assets	20%	5 Year

However, underlying assumptions on estimates are reviewed on a going concern basis and revisions thereon are recognised in the period in which the estimates are revised. It is also required to disclose the contingent assets and liabilities at the date of the financial statements in accordance with the guidelines as prescribed by IAS-37 “Provisions, Contingent Liabilities and Contingent Assets”.

#### Provisions

Provisions are liabilities that are uncertain in timing or amount. Provisions are recognised in the following situations:

- The entity has a present (legal or constructive) obligation as a result of past events;
- Probable out flow of resources to settle the obligation and the obligation can be measured reliably;
- It is more likely than not that outflow of resources will be required to settle the present obligation exists at the end of the reporting period.

#### Contingent liabilities

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events. A contingent liability arises when some, but not all, of the criteria for recognizing a provision are met. IAS-37 applies prudence by deeming a past event to give rise to a present obligation and an entity shall not recognize a contingent liability. However, if it is possible rather than probable that an obligation exists, a contingent liability will exist, not a provision in the financial statements. An entity shall disclose for each class of transaction of contingent liability at the end of the reporting period if the contingent liability is not remote.

#### Contingent Assets

A contingent asset is possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. Contingent assets are never recognised; rather they are disclosed in the financial statements when they arise.

The most significant areas where estimates and judgments have been applied are to calculate provision for loans, advances and investments as per Bangladesh Bank guideline.

**2.01.05 Consistency**

In accordance with IFRS framework for the presentation of financial statements together with IAS-1 “Presentation of Financial Statements” and IAS-8 “Accounting Policies, Changes in Accounting Estimates and Errors”. MDB discloses its information consistently from one period to the next, where selecting and applying a new accounting policies, changes in accounting policies, correction of errors, the amount involved are accounted for and disclosed retrospectively in accordance with the requirement of IAS-8. However, for changes in the accounting estimates, the related amount is recognized prospectively in the current period and in the next period or periods.

- Investment in shares of listed companies are prepared at market value .

#### 2.01.15 Offsetting

Financial assets and liabilities are offset and the net amount is presented in the balance sheet when, and only when, the Bank has a legal right to set off the recognised amounts and it intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. Income and expenses are presented on a net basis only when permitted under IFRSs, or for gains and losses arising from a Bank of similar transactions such as in the Bank's trading activity.

#### 2.01.16 Going concern

The accompanying financial statements have been prepared on a going concern assumption that the Bank will continue in its operation over the foreseeable future. The Bank has neither any intention nor any legal or regulatory compulsion to liquidate or curtail materially the scale of any of its operations. Key financial parameters (including liquidity, profitability, asset quality, provision sufficiency and capital adequacy) of the Bank continued to demonstrate a healthy trend for a couple of years. The Bank has been awarded A1 in long term, ST-2 in short term and Stable in Outlook Status by Credit Rating Agency of Bangladesh (CRAB). Rating details are shown in **(note # 2.06)**. The management does not see any issue with respect to going concern due to recent pandemic COVID-19. Besides, the management is not aware of any other material uncertainties that may cast significant doubt upon the Bank's ability to continue as a going concern.

## 2.02 Significant Accounting Policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements of the Bank and those of the Bank have been applied consistently except otherwise instructed by Bangladesh Bank as the prime regulator. Certain comparative amounts in the financial statements have been reclassified and rearranged to conform to the current year's presentation (if any).

### Assets and basis of their valuation

#### 2.02.01 Cash and cash equivalents

Cash and cash equivalents include notes and coins in hand, unrestricted balances held with Bangladesh Bank and highly liquid financial assets which are subject to insignificant risk of changes in their fair value, and are used by the Bank management for its short-term commitments.

#### 2.02.02 Loans and advances

- Loans and advances/investments of conventional banking/islamic banking branches are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and that the Bank does not sell in the normal course of business. Loans and advances/investment are stated in the balance sheet on gross basis.
- Loans and advances/investments are broadly categorized under the heads of continuous, demand, term and short term agriculture and micro credit. Continuous and demand loans/investments are accounted under capitalized method, where interest/profit accrues on daily basis and applied to loan account quarterly, except equal monthly installment (EMI) loan/investment of which interest/profit are being charged on due date and interest/profit of staff loan/investment are being charged to staff loan/investment account yearly. Interest/profit on classified loans and advances/investments is kept in suspense account as per guideline of Bangladesh Bank and such interest/profit is not accounted for as income until realized from borrowers (**note #13.06**). Interest/profit is not charged on bad and loss loans/investments as per guidelines of Bangladesh Bank. On the basis of recovery, the unapplied interest/profit on such bad & loss loans/investments are being charged to the respective loans/investments account and credited to the income account.
- Commission and discounts on bills purchased and discounted are recognized at the time of realization.
- At each balance sheet date and periodically throughout the year, the Bank reviews loans and advances/investments to assess whether objective evidence that impairment of a loans/investments or portfolio of loans/investments has arisen supporting a change in the classification of loans and advances/investments, which may result in a change in the provision required in accordance with BRPD circular no.03 dated 21 April 2019, BRPD circular no.1 dated 20 February 2018, BRPD circular no.15 dated 27 September 2017, BRPD circular no.16 dated 18 November 2014, BRPD circular no.05 dated 29 May 2013, BRPD circular no.14 dated 23 September 2012 and BRPD circular no.19 dated 27 December 2012. The guidance in the circular follows a formulaic approach whereby specified rates are applied to the various categories of loans/investments as defined in the circulars. The provisioning rates are as follows:

Types of loans and advances	Provision				
	STD	SMA	SS	DF	BL
<b>Consumer:</b>					
House building and professional	1.00%-2.00%	1.00% - 2.00%	20%	50%	100%
Other than housing finance & professionals to setup business	2.00%-5.00%	2.00% - 5.00%	20%	50%	100%
Provision for loan to broker house, merchant banks, stock dealers, etc.	2%	2%	20%	50%	100%
Short-term Agri-credit and micro credit	1%	1%	5%	5%	100%
Small and medium enterprise finance	0.25%	0.25%	20%	50%	100%
Others	1%	1%	20%	50%	100%
<b>Special General Provision COVID-19</b>					
On unclassified general loans and advances, including SMA of which are enjoying deferring classification irrespective of repayment performance until 31 December 2020)	1%-2%	1%-2%	N/A	N/A	N/A

- e) BRPD Circular no.14 dated 23 September 2012 as amended by BRPD Circular no.19 dated 27 December 2012 also provides scope for further provisioning based on qualitative judgments. In these circumstances, impairment losses are calculated on individual loans/investments considered individually significant based on which specific provisions are raised. If the specific provisions assessed under the qualitative methodology are higher than the specific provisions assessed under the prescribed approach above, the higher of the two is recognised in liabilities under “Provision for loans and advances/investments” with any movement in the provision charged/released in the profit and loss account. Classified loans/investments are categorized into sub-standard, doubtful and bad/loss based on the criteria stipulated by Bangladesh Bank guideline.
- f) Loans and advances/investments are written off to the extent that- (i) there is no realistic prospect of recovery, and (ii) against which legal cases are filed, where required and classified as Bad/Loss as per as per BRPD circular no.02 dated 13 January 2003, BRPD circular no.13 dated 07 November 2013 and BRPD circular no.01 dated 06 February 2019 of Bangladesh Bank.
- g) These written off loans/investments however will not undermine/affect the claim amount against the borrower. Detailed memorandum records for all such written off accounts are maintained and followed up. There is no written off loans/investment of MDB as of the reporting date as of 31 December 2021.
- h) **Special general provision COVID-19**  
Considering the impact of COVID 19 pandemic in the overall economy of Bangladesh, the central bank has given deferral benefits for classification of loans and advances/investments irrespective of their repayment performance until end of December 2020 and December 2021 by issuing BRPD circular no.4, dated 19.03.2020, BRPD circular no.15, dated 15.06.2020, BRPD circular no.17, dated 28.09.2020 and BRPD circular no.19, dated 26.08.2021, BRPD circular no.51, dated 29.12.2021 and BRPD circular no.53, dated 30.12.2021.  
To strengthen the financial based and shock absorbing capacity of Banks, the Bangladesh Bank issued BRPD circular # 56, dated 10.12.2020 and BRPD circular # 52, dated 29.12.2021 instructing all Banks to keep 1.00%, 1.50% and 2.00% special general provision on unclassified general loans and advances/investments, including SMA of which are enjoying deferring classification benefits irrespective of their repayment performance until 31 December 2020 and 2021. This provision has to keep under the head of “Special General Provision COVIS-19” and it cannot be released or accounted into income until further instruction issue by Bangladesh Bank. However, if any Loans/Investments fully adjusted by recovering cash, in that case, such provision of interest/profit will be transferred to income a/c (BRPD circular no.50, dated 14.12.2020, BRPD Letter no.56/20 and BRPD circular no.53, dated 30.12.2021.). To comply with the circular, MDB has maintained an amount of BDT 186.29 million as of 31 December 2021 (**note # 13.02**).
- i) **Amounts receivable on credit cards are included in advances to customers at the amounts expected to be recovered.**  
As per Bangladesh Bank circular issued time to time, a general provision at 0.25% to 5% has to maintain under different categories of unclassified loan and advances/investments (Standard/SMA/off-balance sheet exposures, etc.) as stated above. However, such general provision cannot satisfy the conditions imposed by IAS 37 “Provisions, Contingent Liabilities and Contingent Assets” and IFRS-9 “Financial Instruments”. At the year end on 31 December 2021, the Bank has maintained an amount of BDT 1,097.80 million and has shown in the face of balance sheet under the head “Other Liabilities” as against BDT 1,097.80 million of regulatory requirements (**note # 7.09**).

### 2.02.03 Investment

All investment securities are initially recognized at cost, being fair value of the consideration given, including acquisition charges associated with the investment. Premiums are amortized and discounts accreted, using the effective yield method is taken to discount account. Accounting treatment for government treasury securities (HTM/HFT) is made as per regulatory guideline.

**Valuation methods of investment used are:**

**a) Held To Maturity (HTM)**

Investments which have 'fixed or determinable payments', and are intended to be 'held to maturity', other than those that meet the definition of 'held at amortized cost-others' are classified as held to maturity. Initially these investments are recorded at cost. Subsequently, at each year end, these investments are measured at amortized cost. Any increase or decrease in the value of such investment is recognized in shareholders' equity and profit and loss account respectively. Investment (HTM) is shown in the financial statements (note # 6.00).

**b) Held For Trading (HFT)**

Investments classified in this category are acquired principally for the purpose of selling or repurchasing in short trading, or if designated as such by the management. After initial recognition at cost, investments are revalued at Mark to Market (MTM) on weekly basis and any increase on such valuation is recognized as valuation gain under the shareholders' equity and any loss is recognized in the profit and loss account.

**c) REPO and Reverse REPO**

Securities purchased under re-sale agreements are treated as collateralized lending and recorded at the consideration paid and interest accrued thereon. The difference between purchase price and re-sale price is treated as interest received and accrued evenly over the life of REPO agreement.

Since 1 September 2010 transaction of REPO and Reverse REPO are recorded based on DOS circular # 06, dated July 15, 2010 of Bangladesh Bank. Securities under REPO will be excluded from the investment portfolio and hence will not be eligible for SLR purpose. Securities acquired under reverse REPO will be eligible for SLR purpose, initially at its clean price (in case of coupon bearing security) or at market value (in case of non-coupon bearing security).

**Value of investments has been calculated as follows:**

Items	Applicable accounting value
Government treasury bills-HTM	Amortized value
Government treasury bills-HFT	Market value
Government treasury bonds-HTM	Amortized value
Government treasury bonds-HFT	Market value
Prize Bond	At cost
Debenture	At cost

**d) Investment in Listed / Quoted Securities**

These securities are bought and held primarily for the purpose of selling them in future or hold for dividend income. These are reported at cost. Unrealized gains are not recognized in the profit and loss account. But provision for diminution in value of investment is provided in the financial statements where market price is below the cost price of investment as per Bangladesh Bank guidelines (note # 6.02 & Annexure B).

**e) Investment in Unquoted Securities**

Investment in unlisted securities is reported at cost under cost method. Adjustment is given for any shortage of net assets value (NAV) over cost in the profit and loss account, but no unrealized gain booking in the income account (**note # 6.02**).

**Value of investments has been calculated as follows:**

Investment class	Initial recognition	Measurement after initial recognition	Recording of changes
Government treasury securities - Held to Maturity (HTM)	Cost	Amortised cost	Increase in value of such investments is booked to equity, decrease to profit and loss account.
Government treasury securities - Held for Trading (HFT)	Cost	Fair value	Loss to Profit and Loss account, gain to Revaluation Reserve through Profit and Loss account.
Debenture/Bond	Face value	Face value	None
Shares (Quoted) *	Cost	Lower of cost or market value (overall portfolio)	Loss (net off gain) to profit and loss account but no unrealised gain booking in profit & loss a/c.
Shares (Unquoted)*	Cost	Lower of cost or Net Asset Value (NAV)	Loss to profit and loss account but no unrealised gain booking.
Prize bond	Cost	Cost	None

\* Provision for shares against unrealised loss (gain net off) has been taken into account according to DOS circular no.4, dated 24 November 2011 and for mutual funds (closed-end) as per DOS circular letter no.3, dated 12 March 2015 and for mutual funds (open-end) as per DOS circular letter no.10, dated 28 June 2015 of Bangladesh Bank.

**f) Investment in Subsidiary**

Investment in subsidiary is accounted for under cost method of accounting in the Bank's financial statements in accordance with IFRS 10 (Consolidated Financial Statements). Accordingly, investments in subsidiaries are stated in the Bank's balance sheet at cost, less impairment loss, if any. MDB has no subsidiary company as of December 31, 2021.

**2.02.04 Property, plant and equipment**

As per IAS-16 "Property and Equipment" items of fixed assets excluding land are measured at cost less accumulated depreciation and accumulated impairment losses, if any. Land and building are carried at cost. Purchase of software that is integral to the related equipment is capitalised as part of that equipment. Cost includes expenditure that are directly attributable to the acquisition of asset and bringing to the location and condition necessary for it to be capable of operating in the intended manner. When significant parts of an item of fixed asset have different useful lives, they are accounted for as separate items (major components) of fixed assets. The Bank has no land and building during the reporting period.

The gain or loss on disposal of an item of fixed asset is determined by comparing the proceeds from disposal with the carrying amount of the item of fixed asset, and is recognised in other income/ expenses in profit and loss account.

**Subsequent costs**

The cost of replacing a component of an item of fixed asset is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the group and its cost can be measured reliably. The carrying amount of the replaced parts is derecognised. The costs of the day to day servicing of fixed assets are recognised in the profit and loss statement as incurred.

### Depreciation

Depreciation on fixed assets is recognised in the profit and loss statement on straight line method over its estimated useful lives. In case of acquisition of fixed assets, depreciation is charged from the month of acquisition, whereas depreciation on disposed off fixed assets are charged up to the month prior to the disposal. Asset category wise depreciation rates for the current and comparative periods are as follows:

Category of Fixed Asset	Method	Rate (%)
Land	N/A	-
Building	N/A	-
Furniture and fixtures	Straight Line	10%
Office equipments	Straight Line	20%
Library books	Straight Line	20%
Vehicles	Straight Line	20%
Intangible assets (Software)	Straight Line	20%
Computer and peripherals	Straight Line	20%
Interior decoration	Straight Line	10%
<b>Category of fixed assets (ATM Assets):</b>		
Furniture and fixtures	Straight Line	10%
Office equipment	Straight Line	20%

#### 2.02.05 Intangible assets

- a) An intangible asset is recognized if it is probable that the future economic benefits that are attributable to the asset will flow to the entity and the cost of the assets can be measured reliably (IAS 38).
- b) Software represents the value of computer application software licensed for use of the Bank, other than software applied to the operation software system of computers. Intangible assets are carried at its cost, less accumulated amortization/depreciation and any impairment losses. Initial cost comprises license fees paid at the time of purchase and other directly attributable expenditures that are incurred in customizing the software for its intended use.
- c) Expenditure incurred on software is capitalized only when it enhances and extends the economic benefits of computer software beyond their original specifications and lives and such cost is recognized as capital improvement and added to the original cost of software.
- d) Software is amortized using the straight line method over the estimated useful life of 5 (five) years commencing from the date of the application software is available for use over the best estimate of its useful economic life.

#### 2.02.06 Impairment of assets

The carrying amounts of Bank's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. Any impairment loss is recognized in the profit and loss account, if the carrying amount of an asset exceeds its recoverable amount (IAS-36). An amount of BDT 5,154,228 has been impaired and charged to profit and loss account during the financial year 2021 as per para 60 of IAS-36 "Impairment of assets".

#### 2.02.07 Investment properties

- a) Investment property is held to earn rentals or for capital appreciation or both and the future economic benefits that is associated with the investment property, but not sale in the ordinary course of business.
- b) Investment property is accounted for under cost model in the financial statements. Accordingly, after recognition as an asset, the property is carried at its cost, less accumulated depreciation and impairment loss.
- c) Depreciation is provided on a reducing basis over the estimated life of the class of asset from the date of purchase up to the date of disposal (IAS 16).

#### 2.02.08 Other assets

Other assets include mainly advance office rent, payment of advance income tax for which assessment of tax has not been finalized yet and all other financial assets, fees and other unrealized income receivable advance for operating and capital expenditures and stocks of stationery and stamps, etc.

##### Provision on other assets

As per BRPD circular no.14 dated 25 June 2001, a provision of 100% on other assets which are outstanding for one year and above. The Bank maintains provisions in line with this circular unless it assesses there is no doubt of recovery on items of other assets in which case no provision is kept (**note # 13.00**).

#### 2.02.09 Receivables

Receivables are recognised when there is a contractual right to receive cash or another financial asset from another entity.

#### 2.02.10 Inventories

Inventories measured at the lower of cost and net realizable value as per IAS 2 "Inventories".

#### 2.02.11 Leases

IFRS 16 Leases is effective for the annual reporting periods beginning on or after 1 January 2019. IFRS 16 defines that a contract is (or contains) a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. IFRS 16 significantly changes how a lessee accounts for operating leases. Under previous IAS 17, an entity would rent an office building or a branch premises for several years with such a rental agreement being classified as operating lease would have been considered as an off balance sheet item. However, IFRS 16 does not require a lease classification test and hence all leases shall be accounted for as on balance sheet item (except for some limited exception i.e. short-term lease, leases for low value items).

Under IFRS 16, an entity shall be recognizing a right-of-use (ROU) asset (i.e. the right to use the office building, branches, service center, call center, warehouse, etc.) and a corresponding lease liability. The asset and the liability are initially measured at the present value of unavoidable lease payments. The depreciation of the lease asset (ROU) and the interest on the lease liability is recognized in the profit or loss account over the lease term replacing the previous heading 'lease rent expenses'.

While implementing IFRS 16, the Bank observed that IFRS 16 is expected to have impact on various regulatory capital and liquidity ratios as well as other statutory requirements issued by various regulators. In addition, there are no direction from National Board of Revenue (NBR) regarding treatment of lease rent, depreciation on ROU assets and interest on lease liability for income tax purposes and applicability of VAT on such items. Finally, paragraph 5 of IFRS 16 provide the recognition exemptions to short-term leases and leases for which the underlying asset is of low value. Although, paragraphs B3 to B8 of the Application Guidance (Appendix B) of IFRS 16 provide some qualitative guidance on low value asset, but these guidance is focused towards moveable asset and immovable asset like rental of premises (i.e. real estate) is not covered on those guidance, nor any benchmark on quantification guidance on low value items have been agreed locally in Bangladesh.

Nevertheless, as first step the Bank has defined 'low value asset' which are to be excluded from IFRS 16 requirement and considered lease of 'ATM Booths and other installations' as low value asset. Thereafter, the Bank has reviewed lease arrangements for 'office premises' for consideration under IFRS 16.

As per the preliminary assessment of leases for 'office premises', the Bank has concluded that the potential impact of these lease items in the Balance Sheet and Profit and Loss Account of the Bank is not considered to be material. Therefore, considering the above implementation issues the Bank has not taken IFRS 16 adjustments on the basis of overall materiality as specified in the materiality guidance in the 'Conceptual Framework for Financial Reporting' and in 'International Accounting Standard 1 Presentation of Financial Statements'. However, the Bank would continue to liaison with regulators and related stakeholders as well as observe the market practice for uniformity and comparability, and take necessary action in line with any guideline and market practice.

Leases are classified as finance leases whenever the 'terms of the lease' transfer substantially all the risks and rewards of ownership to the lessee as per IAS-17 "Leases". All other leases are classified as operating leases as per IAS 17 "Leases".

**a) Bank as Lessor**

Amount due from lessees under the finance leases are recorded as receivables at the amount of the Bank's net investment in the leases. Finance lease income is allocated to accounting periods as to reflect a constant periodic rate of return on the Bank's net investment outstanding in respect of the leases.

**b) Bank as Lessee**

Assets held under finance leases are recognised as assets of the Bank at their fair value at the date of acquisition or, if lower, at the present value of the minimum lease payment. Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. The Bank has no finance lease or operating lease during the reporting period 2021.

**c) Impact of adopting IFRS-16**

The following summarises the impact of adopting IFRS-16 on the Bank's balance sheet and profit & loss account for the period then ended on 31 December 2021, for each of the line items affected. Impact for implementation of IFRS-16 is depicted below. Amount without adoption of IFRS 16 + Adjustment for IFRS 16 = Amount after implementation of IFRS-16.

**2.02.12 Non-banking assets**

Non-banking assets are acquired on account of failure of a borrower to repay the loan on time after receiving the decree from the honorable court regarding the right and title of the mortgage property. MDB filed an Artha Rin suit bearing # 539/2017, dated 02.03.2017 against one default customer, A/C: Al-Fahad Air Ticketing and Medical Tourism Limited. The Bank has been awarded the ownership of the mortgage properties according to the verdict of the honorable court in accordance with section 33(5) of "Artha Rin Adalat-2003". The honorable court also orders to charge unapplied interest until fully recovery of the loan by selling the mentioned collateral land. The value of the collateral land has been determined at BDT 14.54 million on the basis of valuation report on an independent valuer. Subsequent approval taken from the Board of Directors of MDB, the full amount of loan BDT 12.59 million (market value of the property at BDT 14.54 million) transferred to Non-Banking Assets of the Bank, which will continue to sustain in Bank's Balance Sheet until sale/disposal of the said property acquired by the Bank u/s 33(5) of the Arta Rin Adalat Ain 2003 as mortgagee Bank and 100% provision is kept against the said non-banking assets.

#### 2.04.12 Interest paid and other expenses

In terms of the provisions of IAS 1 "Presentation of Financial Statements" interest and other expenses are recognized on accrual basis.

- a) **Interest paid on subordinated bond, borrowing and other deposits (Conventional banking)**  
Interest paid and other expenses are recognised on accrual basis
- b) **Profit shared on deposits (Islamic banking)**  
Profit paid to mudaraba deposits is recognised on accrual basis according to Income Sharing Ratio (ISR).
- c) **Other operating expenses**  
All other operating expenses are provided for in the books of the account on accrual basis according to the IAS 1 "Presentation of Financial Statements".
- d) **Dividend payments**  
Interim dividend is recognized when they are paid to shareholders. Final dividend is recognized when it is approved by the shareholders in the Annual General Meeting (AGM). The proposed dividend has not been recognized as a liability in the balance sheet in accordance with the IAS 10 "Events after the Reporting Period".  
Dividend payable to the shareholders is recognized as a liability and deducted from the shareholders' equity in the period in which the shareholders' right to receive the payment is established.

#### 2.04.13 Earnings per share (EPS)

The company calculates earnings per share (EPS) in accordance with IAS 33 "Earnings per Share (EPS)" which has been shown on the face of Profit and Loss Account. The EPS has been calculated by dividing the net profit after tax by the total number of ordinary shares outstanding at the end of the reporting year. Details are shown in note # 40.00 to the financial statements.

- a) **Basic earnings per share**  
This represents earnings for the year attributable to ordinary shareholders. Net profit after tax has been considered as fully attributable to the ordinary shareholders. Basic earnings per share is calculated by dividing net profit after tax by the total weighted average number of ordinary shares outstanding at end of the reporting year.
- b) **Weighted average number of ordinary shares**  
This represents the number of ordinary shares outstanding at the beginning of the year plus the number of ordinary shares issued during the year. The basis of computation of number of shares is in line with the provisions of IAS 33 "Earnings per share". The logic behind this basis is, that the bonus shares are issued to the existing shareholders without any consideration, and therefore, the number of shares outstanding is increased without an increase in resources generating new earnings.
- c) **Diluted earnings per share**  
No diluted earnings per share are required to be calculated for the period 2021, as there was no element or scope for dilution during the period under review. However, EPS is restated for the comparative years, if it requires as per IAS 33 "Earnings per share (EPS)".

#### 2.04.14 Foreign exchange gain/loss

Exchange income includes all gain and losses from foreign currency day to day transactions, conversions and revaluation of non-monetary items.

#### 2.04.15 Related party transactions

Parties are considered to be related, if one party has the ability directly or indirectly to control the other party or exercise significant influence over the other party in making financial and operational decisions. Parties are also considered to be related, if they are subject to common control or common significant influence. Related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged as per IAS 24 “Related Party Disclosures”, Bangladesh Bank and Bangladesh Securities & Exchange Commission (BSEC) guidelines. Details of Related party transactions have been disclosed in (note # 44.00).

#### 2.05 Event after the reporting period

As per IAS -10 “Events after Reporting Period” are those events, favourable and unfavourable, that occur between the end of the reporting period and the date when the financial statements are authorised for issue. Two types of events can be identified:

- (a) those that provide evidence of conditions that existed at the end of the reporting period (adjusting events after the reporting period); and
- (b) those that are indicative of conditions that arose after the reporting period (no adjusting events after the reporting period).

The only material event after the balance sheet date is: The Board of Directors recommended cash dividend @ 5% for the financial year 2021, in its 122st Board Meeting held on April 24, 2022.

#### 2.06 Credit rating

Credit Rating Agency of Bangladesh Limited (CRAB) has been rated the Bank based on the audited financial statements as of December 31, 2020, un-audited financial statements as of March 31, 2021 and other relevant quantitative as well as qualitative information up to the-date-of rating declaration. They have been rated the Bank as A1 in the long term and ST-2 for the short term and outlook is stable. The date of rating was June 17, 2021 and valid till June 30, 2022.

Year	Long term rating	Short term rating	Outlook
2020 (valid upto 30 June 2022)	“A1”	“ST 2”	Stable

The rating reflects the strengths of the Bank which is backed by a strong team of management, growth in the non-interest income, deposits and investments, adequate capital coverage with high Tier 1 capital, improved asset quality and well controlled of liquidity position.

#### 2.07 Directors' Responsibility on Financial Statements

The Board of Directors take the responsibility for preparation and presentation of these financial statements.

#### 2.08 Memorandum items

Memorandum items are maintained to have control over all items of importance and for such transactions where the Bank has only a business responsibility and no legal commitment. Bills for collection, savings certificates, wage earners bonds and others fall under the memorandum items. However, Bills for Collection is shown under contingent liabilities under the head of Off-balance Sheet Exposures as per Bangladesh Bank’s reporting format.

#### 2.09 Information about business and geographical segments

Segmental information is presented in respect of Midland Bank Limited.

##### a) Business segments

Business segments report consists of products and services whose risks and returns are different from those of other business segments.

##### b) Geographical Segments

Geographical segments report consists of products and services within a particular economic environment, where risks and returns are different from those of other economic environments. Inter-segment transactions are generally based on inter-branch fund transfer measures as determined by the management. Income, expenses, assets and liabilities are specifically identified with individual segments.

## 2.10 Compliance report of International Accounting Standards/ International Financial Reporting Standards (IFRSs)

The financial statements of the company have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and adopted by The Institute of Chartered Accountants of Bangladesh (ICAB) vide letter no 1/1/ICAB-2017 dated 14 December 2017. #### **Standards issued but not yet effective**

The Institute of Chartered Accountants of Bangladesh (ICAB) has adopted following new standards and amendments to standards time to time. All previously adopted reporting standards are consistently applied by the Bank as explained in Note # 2.10.

The Bank has consistently applied the accounting policies as set out in **note # 2** to all periods presented in these financial statements. The various amendments to standards, including any consequential amendments to other standards, with the date of initial application of 1 January 2021 have been considered. However, these amendments have no material impact on the financial statements of the Bank.

In December 2017, ICAB has decided to adopt IFRS replacing IAS effective for annual periods beginning on or after 1 January 2018. However, since currently issued IFRS have been adopted from IAS without any major modification, such changes would not have any material impact on financial statements.

A number of standards and amendments to standards are effective for annual periods beginning after 1 January 2018 and earlier application is permitted. However, the Bank has not early applied the following new standard in preparing these financial statements.

#### **IFRS 17 - Insurance Contracts**

IFRS 17 was issued in May 2017 and applies to annual reporting periods beginning on or after 1 January 2021. IFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the standard. The objective of IFRS 17 is to ensure that an entity provides relevant information that faithfully represents those contracts. The Bank has not yet assessed in potential impact of IFRS 17 on its financial statements.

#### **2.11 Materiality and aggregation**

Each material class of similar items has been presented separately in the financial statements. Items of dissimilar nature also have been presented separately unless they are immaterial in accordance with IAS-1 "Presentation of Financial Statements".

#### **2.12 General**

##### **a) Comparative information**

Comparative information in respect of the previous year has been presented from the financial statements audited by current year auditors for the period ended on December 31, 2021. Figures of previous year have been rearranged whenever necessary to confirm the current year/period presentation.

##### **b) Disclosures of expenditures**

Expenses, irrespective of capital or revenue nature, accrued/due, but not paid have been provided for in the books of the Bank.

##### **c) Approval of Financial Statements**

These financial statements have been prepared by the management, audited by the external and regulatory auditors and thereafter approved by the board of directors of the Bank in its 122nd Board meeting held on April 24, 2022.

**7.14** Audited Financial Statements are mandatory documents for any company applying for new loan facility from bank. The bank reviews the Audited Financial Statements while assessing any new credit / Loan facilities to any new customers. In compliance with BRPD Circular Letter No. 04, dated January 04, 2021, the bank obtained audited financial statements while approving any new loan facility and wherever required under Financial Reporting Act'2015. Audited Financial Statements are preserved in the loan files by the bank and during each review latest audited financials are also obtained. However, in some special circumstances where latest Audited Financial Statements is not available and where there is valid reason for delay in submission of latest audited financial, the bank uses interim Management Accounts for conducting the Internal Credit Risk Rating (ICRR) for the purpose of renewal of any loan facilities as per guidelines of ICRR of Bangladesh Bank. However, from September' 2021 the Bank is verifying the Financial Statements using the Document Verification System (DVS) as per BRPD Circular Letter 35 dated July 06, 2021 and FRC Letter No. 178/FRC/APR/2021/27(28) dated December 08, 2021.

#### Rationale

Emerging Credit Rating Limited (ECRL) has assigned **A+** (Pronounced as Single A Plus) long term credit rating and **ST-2** short term credit rating to Midland Bank Limited (hereinafter referred to as 'MDB' or 'the bank') based on audited financials of FY2018-FY2021 and other available information up to the date of rating declaration. The outlook on the rating is **Stable**. The rating is consistent with ECRL's methodology for this type of financial institutions and bond rating.

The rating reflects the strengths and challenges of the bank. The strengths include good growth in terms of loans and deposits, compliant with CRR, SLR & CRAR requirement, growth in operating income. However, ECRL is concerned about the significant increase of NPL, high exposure to large loans, slump in non-interest income as well as fall in post-tax profit.

In the middle of the pandemic, MDB's total asset continued to grow, as seen by a 19.34% increase in total assets in FY2020 and further 9.30% by the end of FY2021. The improvement was aided by the principal component of the total asset, loans and advances, which increased by 17.35% in FY2021. However, the growth rate of gross loans and advances portfolio of MDB has fluctuated over the previous four-year period. The improvements to loans portfolio have been mostly aided by the increasing term loan portfolio in 2021. Focusing on the investment portfolio of MDB which had continuous growth in the 2018-2020 period, however, slowed down considerably in FY2021 showing a minimal 2.37% uplift.

Notably, there was a significant 221.35% increase of NPL of MDB during FY2021 that showed the highest NPL amount of BDT 1,455.05 million among the FY2018-FY2021 period. The performance of loans deteriorated after the loan downwards classification as well as relaxation on loan payments regulations was slowly redacted in 2021 and many businesses still struggled to make repayments on schedule. The portions of sub-standard and doubtful loans have increased in the NPL portfolio in 2021. The NPL to gross loan ratio increased to 3.17% in FY2021 from 1.16% in FY2020. Loan loss reserve of the bank covered 75.45% of the total NPL in FY2021 against a significantly higher 173.19% in FY2020 indicating worsened safety against potential losses arising from the NPLs in future. The bank has maintained BDT 1,097.80 million provisions against classified and unclassified loans and advances with no surplus/shortfall in the latest year.

For countering the loan quality deterioration, the bank had rescheduled a total of BDT 2,193.18 million loans in FY2021 which was BDT 832.54 million by the end of FY2020. The rescheduled loans

represented 4.78% of the total loan portfolio while MDB has not written off any loans in FY2021. Combining it all, the NPLs, rescheduled loans and written-off loans together represented 7.95% of the loan book of the bank from 3.29% in the same time previous year.

MDB has high exposure to its large loan portfolio. The bank's exposure to large loans (funded and non-funded together exceeding 10% of bank's capital) was 49.98% of total loans in FY2021 in contrast to 47.70% in FY2020. On top of that, the top 30 credit exposure (funded and non-funded together) of the bank reached BDT 22,863.52 million (49.85% of total loans) in FY2021.

Total capital (Tier-I and Tier-II) of the bank stood at BDT 8,132.78 million in FY2021 and the risk weighted asset at BDT 51,240.21 million. The CRAR had a downfall to 15.87% from 17.44% in FY2020; however, the bank comfortably exceeded the minimum capital requirement of 12.50% in both times.

MDB's deposits base have improved by 12.56% in 2021 which had been increasing over the previous three years as well. The bank has kept its ADR ratio within the regulatory requirement of Bangladesh Bank within 87% during FY2021 and scored 83.62% in the loan to deposit ratio.

For conventional banking, MDB kept the required CRR and SLR amount with surplus standing at BDT 215.63 million and BDT 7,569.36 million in FY2021 respectively. For Islamic banking, the bank also kept the required CRR and SLR amount with surplus standing at BDT 66.37 million and BDT 172.80 million in FY2021 respectively.

Due to the above mentioned interest rate cap imposed by Bangladesh Bank as well as lower demand for credit due to the ongoing covid-19 pandemic, the net interest income of MDB fell by a significant 67.69% in FY2020. The bank recovered by exhibiting a 135.47% growth in FY2021 from the position of 2020.

Although the non-interest income lowered by 12.69% in 2021 the total operating income of the bank had moderate growth of 13.62%. Despite MDB's loans & advances growing by 17.35% in 2021, the bank's interest income from lending activities grew only by 5.47%. In 2021, total operating income of the bank consisted 63.20% non-interest income and the rest by net interest income. The cost to income ratio of the bank showed reduced figures according to the decrease of operating cost compared to operating income in FY2021. The bank's provision and tax expenses increased compared to previous year. Eventually, MDB earned lower post-tax profit of BDT 514.02 million in FY2021 from BDT 656.36 million in FY2020 with a negative growth of 21.69%. The primary contributor of decrease in post-tax profit was higher provision and tax expenses during FY2021.

The **Stable** rating outlook reflects ECRL's expectations that MDB is likely to maintain its business growth and consistency and the bank will adopt policies and actions to improve asset quality.

In total there are sixty-one scheduled banks in Bangladesh who operate under full control and supervision of Bangladesh Bank which is empowered to do so through Bangladesh Bank Order, 1972 and Bank Company Act, 1991. Scheduled banks are classified as State Owned Commercial Banks (SOCBs; 06), Specialized Banks (SDBs; 03), Private Commercial Banks (PCBs; 43) and Foreign Commercial Banks (FCBs; 09). PCBs can be categorized into two groups: Conventional PCBs (33) and Islami Shariah based PCBs (10). Besides, there are also five Non-Scheduled banks which are established for special and definite objective and operate under any act but are not scheduled banks. These banks cannot perform all functions of scheduled banks.

The performances of overall banking sector exhibited a mixed trend at the end of September 2021 (which shall be referred to as “Q3, 2021”) as reflected in a marginal improvement in non-performing loans (NPLs), a moderation in capital to risk-weighted asset ratio (CRAR), an increase in the growth of bank’s advances, a decline in provisions maintained against bad loans, an improvement in profitability, and maintenance of an adequate liquidity. The ratio of gross NPLs edged down in Q3, 2021 from Q2, 2021 after rising consecutively for the past two quarters, mostly facilitated by the state-owned commercial banks (SCBs).

#### B.1.1. Asset Quality

The most important indicator to demonstrate the asset quality is the ratio of gross non-performing loans (NPLs) to total loans. The ratio of gross NPLs to total loans edged down to 8.12 percent at the end of Q3, 2021 from 8.18 percent at the end of Q2, 2021 and 8.88 percent at the end of Q3, 2020 partly owing to the relaxation of loan repayment policy due to COVID-19 hit business activities and strengthening loan recovery activities and loan disbursement screening by the banks.

The gross NPLs ratio for SCBs dropped to 20.07 percent at the end of Q3, 2021 from 20.62 percent at the end of Q2, 2021 and 22.46 percent at the end of Q3, 2020. While the ratio of gross NPLs for private commercial banks (PCBs) and foreign commercial banks (FCBs) inched up to 5.47 percent and 4.12 percent respectively at the end of Q3, 2021 from 5.44 percent and 3.91 percent respectively at the end of Q2, 2021.

The above table shows the aggregate amount of NPLs, the required provision and the actual provision maintained by the banks from Q3, 2020 to Q3, 2021. The table shows that there was provision shortfall against NPLs in the banking sector over the last five quarters up to Q3, 2021 and provisions maintained against classified loans slipped further as reflected in widening provisioning shortfall at the end of Q3, 2021.

### B.1.2. Capital Adequacy

Capital adequacy focuses on the overall position of bank's capital and the protection of the depositors and other creditors from potential losses that a bank might incur. It helps banks to absorb possible losses due to credit, market and operational risks that a bank might be exposed to during its normal course of business. Under Basel-III, banks in Bangladesh are instructed to maintain minimum capital requirement (MCR) at 10% of the risk weighted assets (RWA) and CRAR of 12.50% with capital conservation buffer.

**Exhibit 4: Capital to Risk Weighted Ratios by Type of Banks** (in percentage)

Particulars	2020				2021		
	Mar	Jun	Sep	Dec	Mar	Jun	Sep
State Owned Commercial Banks	4.59	6.93	8.25	4.34	6.49	6.82	6.25

Although the capital to risk-weighted assets ratio (CRAR) moderated to 11.22 percent at the end of Q3, 2021 from 11.57 percent at the end of Q2, 2021, overall capitalization of the banking system remained above the Basel-III standard. The CRAR of SCBs, PCBs and FCBs went down to 6.25 percent, 13.09 percent and 27.10 percent respectively at the end of Q3, 2021 from 6.82 percent, 13.26 percent and 28.46 percent respectively at the end of Q2, 2021.

### B.1.3. Credit and Deposit Scenario

The growth of credit to private sector was close to 9 percent for last several quarters but crept slightly up at the end of Q3, 2021 increased to 8.8 percent at the end of Q3, 2021 as compared to 8.3 percent at the end of Q2, 2021. With the reopening of economic activities and economic recovery, it is expected that demand for credit would get further momentum in coming quarters.

**Exhibit 5: Credit and Deposit growth of Scheduled Banks** (In percent)

\*Adjusted deposit growth of ADR

The growth of bank's advances exhibited an upward trend since Q2, 2021 reaching at 10.7 percent (y-o-y) in Q3, 2021 from that of 8.5 percent in Q2, 2021, reflecting the gradual increase of demand for credit owing to the reopening of the economic activities. While the growth of bank's deposit further decelerated to 12.3 percent in Q3, 2021 from that of 13.8 percent in Q2, 2021, partly due to a sudden fall in remittance inflows accompanied by a sharp rise in family expenditure following a recovery after the pandemic. Consequently, the overall advance-deposit ratio (ADR) rose to 72.1 percent at the end of Q3, 2021 from 71.6 percent at the end of Q2, 2020 and remained broadly stable.

#### B.1.4. Lending rate structure by type of bank and interest spread

**Exhibit 6: Credit and Deposit Position of Scheduled Banks** (In percent)

Particulars	Lending Rate	Deposit Rate	Spread
	As on September 2021		
SCBs	6.5	4.2	2.3
SBs	7.2	5.8	1.4
FCBs	5.9	0.9	5.0
PCBs	7.5	4.2	3.3

Source: Bangladesh Bank.

Lending rates for PCBs and FCBs show a declining trend during COVID-19 period, while that for SCBs and SBs remained stable before and during the pandemic period. The rates for SCBs, SBs, FCBs and PCBs registered at 6.5 percent, 7.2 percent, 5.9 percent and 7.5 percent, respectively in September 2021, reflecting that the rate was mostly driven by market forces and essay monetary policy. Similar to the trend of lending rates, weighted average deposit rates for PCBs and FCBs show a declining trend during COVID-19 period, while that for SCBs and SBs remained stable before and during the pandemic period. The rates for SCBs, SBs, FCBs and PCBs registered at 4.2 percent, 5.8 percent, 0.9 percent and 4.2 percent, respectively in September 2021. Following the imposition of lending rate cap, the spread between lending and deposit rates was lower in the COVID-19 pandemic period than the pre-pandemic period. The spread declined from 4.1 percent in March 2020 to 3.2 percent in July 2021 for banks by all types, reflecting a discipline in operational costs and risk premiums. The spread reduced from 2.4 percent, 2.0 percent, 6.6 percent and 4.4 percent in March 2020 to 2.3 percent, 1.4 percent, 5.0 percent and 3.3 percent for SCBs, SBs, FCBs and PCBs, respectively in September 2021.

#### B.1.5. Liquidity Position of Banks

The surplus liquidity in the banking sector moderated to BDT 2,195.9 billion at the end of Q3, 2021 owing to higher credit growth, decelerated deposit growth and the mopping up of some liquidity through foreign exchange market intervention. In the presence of huge amount of surplus liquid assets in the economy, the BB mopped up some excess liquidity from the banking system in Q3, 2021, aiming to control price pressures and maintain the money markets stability. On the other hand, it is expected that since the economic activities are being rebounded in recent periods after a significant improvement of COVID-19 situation in the country, it would subsequently ease the pressure on excess liquidity, increasing private sector credit growth by strengthening economic activities. Currently adequate liquidity exists in the banking system, sufficient enough to absorb credit demand.

Profitability of the banking sector improved in Q3, 2021 compared with Q3, 2020, as reflected in an uptick in return on equity (ROE). This uptick in ROE stemmed partly due to a fall in interest expenditure and a rise in non-interest income, and profit earning from capital market. Net profit of the banking industry increased from BDT 65.82 billion in Q3, 2020 to BDT 72.29 billion (of which BDT 5.13 billion from capital market in Q3, 2021 against BDT 1.39 billion in Q3, 2020 in Q3, 2021. Return on equity (ROE) rose to 7.42 percent in Q3, 2021 from 7.22 percent in Q3, 2020, while return of asset (ROA) remained almost unchanged at 0.44 percent. The profitability of PCBs witnessed a marginal improvement, both ROA and ROE increased from 0.60 percent and 8.96 percent in Q3, 2020 to 0.66 percent and 10.01 percent Q3, 2021 respectively. Moreover, ROE of SCBs improved marginally to (0.14) percent in Q3, 2021 from that of (0.18) percent during the same time of the previous year while ROA remained unchanged at (0.01) percent. In addition, ROA and ROE of FCBs decelerated to 1.31 percent and 8.40 percent Q3, 2021 from 2.15 percent and 12.69 percent respectively Q3, 2020.

## C. BUSINESS RISK ANALYSIS

Risk is an integral part of financing business and thus every financial institution is exposed to risk of different type and magnitude. So, the prime responsibility of every financial institution is to manage its risk such that its return from business can be maximized. Banks are exposed to five core risks through their operation, which are Credit Risk, Asset/Liability Risk, Foreign Exchange Risk, Internal Control & Compliance Risk, Money Laundering Risk, and Information & Communication Technology Security Risk.

### C.1. Impact of COVID-19 pandemic

The pandemic affected the banking industry in many aspects both in short term and long term. Among various risks, credit risk and liquidity risk has shaken the industry mostly. The Non-performing Loan (NPL) of the Bank is prone to rise to a new level due to this pandemic. The credit worthiness of the existing borrower may deteriorate which can undermine the possibility of repayment of loan.

In the early months of the pandemic, Bangladesh Bank (BB) undertook a number of measures to ensure adequate liquidity in the financial system to support the operations of financial institutions. Accordingly, BB announced to buy treasury bonds and bills from banks; lowered REPO rates from 5.25% to 4.75%; reduced Cash Reserve Ratio (CRR) from 5% to 3.50% (daily-basis) and from 5.50% to 4% (bi-weekly basis) from April 15, 2020; increased advance-deposit ratio (ADR) for all the conventional banks from 85% to 87%, effective from April 15, 2020; increased

investment deposit ratio (IDR) for Islami Shariah-based banks and the conventional banks operating under Islamic Shariah rules from 90% to 92%, effective from April 15, 2020. The central bank also decided to put restrictions on loan classification in 2020 and 2021. These loan classifications are being lifted slowly currently and banks are seeing an increase in non-performing loans.

## **C.2. Credit Risk**

Credit risk is one of the most vital risks for any commercial bank as like Midland Bank Limited. Credit risk arises from non performance by a borrower. It may arise from either an inability or an unwillingness to perform in the pre-commitment contracted manner. The real risk from credit is the deviation of portfolio performance from its expected value. The credit risk of a bank also affects the book value of a bank. The more credit of a particular is in risk, the more probability of a bank to be insolvent. Therefore, the status of depositor in the bank is at risk and probability of incurring loss from their deposited value.

At MDB, credit risk is documented under credit risk policy, credit risk appetite, collective allowance policy for performing loans. The exposure to a single customer or group of related parties, country risk and industry concentrations are considered in credit risk management.

## **C.3. Asset Liability Management Risk**

Asset Liability Management (ALM) is an integral part of Bank Management; and so it is essential to have a structured and systematic process to manage the Balance Sheet risk properly. RMC of MDB reviews and monitors asset-liability risk of the bank regularly and decision taken in the ALCO meeting is also reviewed and discussed. The bank has dedicated committee called “ALCO” comprising of the senior management of the bank headed by the Managing Director & CEO to take important decisions related to the balance sheet, liquidity & profit rate risks of the bank.

### **C.3.1. Liquidity Risk**

Liquidity risk is the potential for loss to a bank arising from either its inability to meet its obligations as they fall due or to fund increases in assets without incurring unacceptable cost or losses. Liquidity risk arises when the cushion provided by the liquid assets are not sufficient enough to meet maturing obligations. Liquidity risk is often triggered by the consequences of other financial risks such as credit risk, interest rate risk, foreign exchange risk, etc. MDB’s Asset Liability Committee (ALCO) is entrusted with the responsibility of managing the liquidity risk.

### **C.3.2. Interest Rate Risk**

Interest rate risk is the possible loss from adverse movements in market interest rates. Changes in interest rates affect a bank’s earnings by changing its net interest income and the level of other interest-sensitive income and operating expenses. At MDB, interest risk is reduced by determining interest rate in consideration to the expectation of the depositors and market scenario and gap analysis is considered for fixing the interest rate.

### **C.3.3. Foreign Exchange Risk**

Foreign exchange risk is the current or prospective risk to earnings and capital arising from adverse movements in currency exchange rates. Managing foreign exchange risk involves prudently managing foreign currency positions in order to control, within set parameters, the impact of changes in exchange rates on the financial position of the bank. MDB has a developed and structured Foreign Exchange Risk Manual and an international standard dealing room manual. In order to mitigate the risk, the bank follows all kinds of guidelines and directive that central bank advises from time to time. The treasury carries out the activities of foreign exchange as per procedures of dealing room manual.

## **C.4. Operational Risk**

Bangladesh Bank defines operational risk as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. This operational risk also includes legal risks but not strategic and reputational risks.

#### **C.4.1. Anti Money Laundering Policy**

Money laundering risk refers to acquired or earned properties directly or indirectly through illegal means. In broader sense, illegal transfer, conversion, concealment of location or assistance in the above act of the properties acquired or earned directly or indirectly through legal or illegal means. So Anti Money Laundering risk is defined as the loss of reputation and expenses incurred as penalty for being negligent in prevention of money laundering activities.

Anti-Money Laundering Division of MDB has taken measures to identify challenges, good practices and policy responses to new threats and trends arising from the pandemic crisis. Emerging sophisticated techniques of moving illicit money are compelling the financial intermediaries to make their compliance program more rigorous. MDB has equipped itself by deploying robust and extensive Policy Guidelines, imparting comprehensive training of human resources to build human capital and gradually moving into embracing world class technology tools to protect the bank and make the business more sustainable.

#### **C.4.2. Internal Control and Compliance (ICC)**

In many banks internal control is identified with internal audit; the scope of internal control is not limited to audit work. It is an integral part of the daily activity of a bank, which on its own merit identifies the risks associated with the process and adopts a measure to mitigate the same. It plays an important role in preventing and detecting fraud and protecting the organization's resources. At the organization level, internal control objectives relate to the reliability of financial reporting, timely feedback on the achievement/strategic goals, and compliance with laws and regulations.

At MDB, the board of directors is responsible for approving overall business strategies and significant policies of the banks, setting acceptable level for these risks and ensuring that senior management takes necessary steps to identify, measure, monitor and control these risks. The board also approves effective internal control system that requires setting an appropriate control structure with control activities defined at every business level. These include review by top level management, appropriate activity controls for different departments/divisions, physical control, checking for compliance with exposure limits and follow-up on non-compliance, a system of approvals and authorization, and a system of verification and reconciliation thereon.

#### **C.4.3. Information & Communication Technology (ICT) Security System**

Risks surrounding IT, such as network failure, lack of skills, hacking and viruses and poor system integration have the potential to have a negative impact on a Bank. MDB is evolving its business processes by leveraging innovative technologies e.g. internet for faster and documented communication between the divisions, department and branches and also with the clients. This facilitates faster identification of any deviant activities risk and as well as faster delivery of our services. To mitigate such risk, MDB has adequate professional skilled manpower and also upgrade its technology.

FY2018-FY2021 data extracted from Audited Financial Statements

The onset of the COVID-19 pandemic in 2020-2021 has had a significant impact on the country's economy. The government of Bangladesh has implemented a number of stimulus programs to help businesses weather the storm. Non-performance of loans as well as the interest rate cap has put the country's banking sector under significant strain in 2020-2021. MDB's total asset base has been growing year on year in the FY2018 – FY2021 period. The bank continued growing in the midst of the pandemic as depicted by the 19.34% growth of total asset in FY2020 which further grew by 9.30% at the end of FY2021. The growth was a result of improvement in the primary component of the total asset which is loans and advances growing by 17.35% in FY2021.

#### D.1.1. Asset Quality

The growth rate of gross loans and advances portfolio of MDB has fluctuated over the previous four-year period. Even though the COVID-19 pandemic and interest rate cap has lowered the growth on loans and advances in 2020-2021 of the banking industries, MDB showed good growth of 23.11% in FY2020 and further 17.35% growth by the end of 2021. In FY2021, the bank's loans and advances portfolio reached BDT 45,867.48 million from BDT 39,086.67 million of FY2020, raising by 17.35%. The improvements to loans portfolio have been mostly aided by the increasing term loan portfolio in 2021. Notably, this may be a result of increasing outstanding liabilities being accumulated due to the loan repayment relaxation in 2020 and 2021 by the central bank's directives.

Figure 4: Selected Indicators of MDB

At the same time, banks of the country focused more on their investment portfolio to counter interest rate cap and the ease of interest payment for borrowers due to the pandemic. Investment portfolio of MDB had continuous healthy growth in the 2018-2020 period, however, the growth slowed down considerably in FY2021 showing a minimal 2.37% uplift.

Notably, there was a significant 221.35% increase of NPL of MDB during FY2021 that showed the highest NPL amount of BDT 1,455.05 million among the FY2018-FY2021 period. The performance of loans deteriorated after the loan downwards classification as well as relaxation on loan payments regulations was redacted in 2021 and many businesses still struggled to make repayments on schedule. The gross NPL in FY2021 consisted of 21.56% sub-standard, 40.42% doubtful, 38.02% bad loss loans. Trend wise, the bank had larger dependency on the bad loss loan in its non-performing loan over the previous years. However, the portions of sub-standard and doubtful loans have increased in the NPL portfolio in 2021. The NPL to gross loan ratio increased to 3.17% in FY2021 from 1.16% in FY2020.

The banks provision coverage ratio has descended in FY2021 compared to the previous three years. Loan loss reserve of the bank covered 75.45% of the total NPL in FY2021 against a significantly higher 173.19% in FY2020 indicating worsened safety against potential losses arising from the NPLs in future. The bank has maintained BDT 1,097.80 million provisions against classified and unclassified loans and advances with no surplus/shortfall in the latest year.

Figure 5: Selected Indicators of MDB

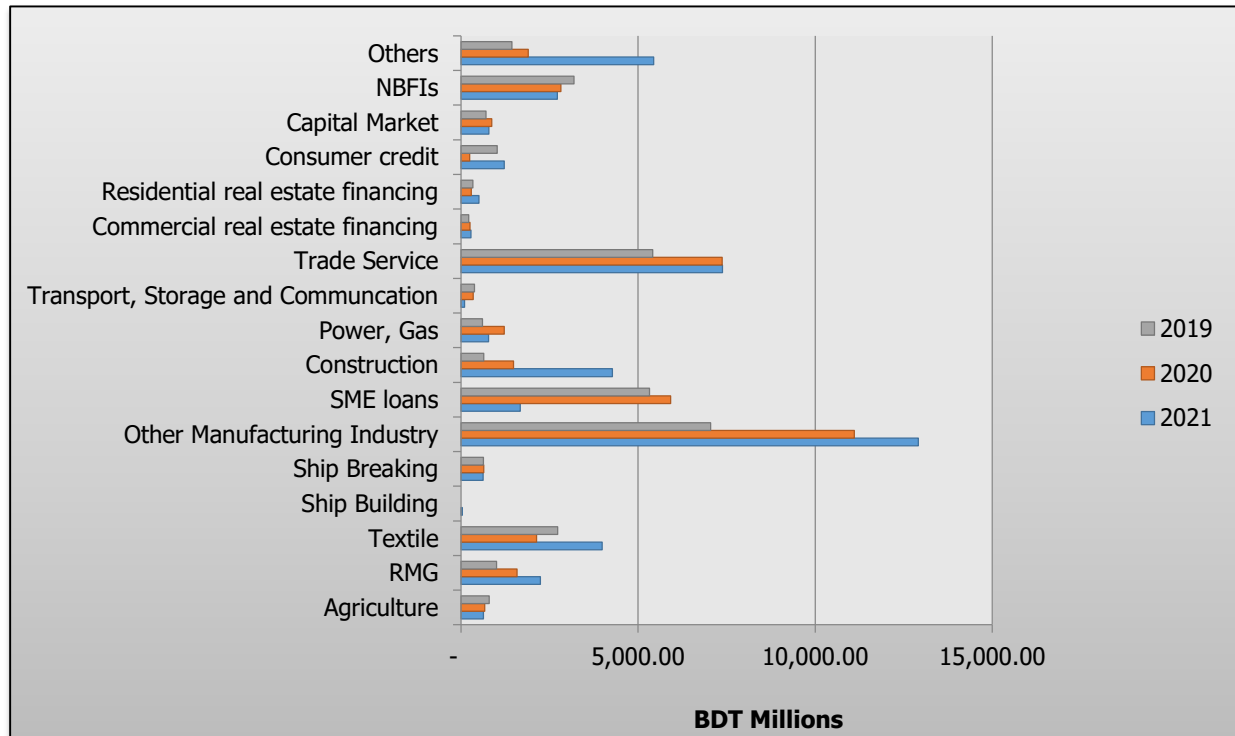

### D.1.2. Loan Diversification and Concentration

MDB's loan portfolio is diverse with concentration in different sectors of the economy divided into RMG, Textile, Manufacturing Industry, SME loans, Construction, Trade Service, NBFIs and Others. The industry wise concentration shows that loans and advances portfolio was led by uncategorized manufacturing Industry (28.29%) followed by Trade Service (16.18%) and construction loans (9.37%) by the end of FY2021.

Short term loans comprise of the majority (63.26%) of the total loans and advances base in 2021 which is a stable trend among the FY2018-FY2021 periods. While geographically, only 2.23% of the bank's loans are in rural areas and the remaining 97.77% loans are in urban areas at the end of FY2021. Among the total portfolio, the highest concentration of loans is in the Dhaka division (87.24%) followed by Chattogram division (11.74%).

**Figure 6: Industry-wise distribution of loans & advances of MDB**

### D.1.3. Rescheduled and Written-Off Loans

In FY2021, the bank had rescheduled a total of BDT 2,193.18 million under 27 accounts which was BDT 832.54 million under 10 accounts by the end of FY2020. The rescheduled amount showed a significant growth in FY2021 from the FY2020 which might have been an effect of the restriction imposed during 2020 that was also extended with terms and conditions till December 2021 that classification status of loans will not be downgraded. In 2021, the rescheduled loans represented 4.78% of the total loan portfolio while it was 2.13% in the FY2020. MDB has not written off any loans in the FY2020 and FY2021. At the end of the FY2021, the NPLs, rescheduled loans and written-off loans together represented 7.95% of the loan book of the bank from 3.29% in the same time previous year.

### D.1.4. Large Loan Exposure

MDB has high exposure to its large loan portfolio. The bank's exposure to large loans (funded and non-funded together exceeding 10% of bank's capital) has increased by the end of FY2021 from a year ago. The number of such large loan accounts was BDT 22,922.29 million (49.98% of total loans) in FY2021 in contrast to BDT 18,642.61 million in FY2020 (47.70% of total loans).

The top 30 credit exposure (funded and non-funded together) of the bank reached to BDT 22,863.52 million (49.85% of total loans) in FY2021 which was BDT 20,041.56 million in FY2020 (51.27% of total loan).

### D.1.5. Off-Balance sheet exposure

The off-balance sheet contingent liabilities of MDB have stood at BDT 12,300.02 million in FY2021. As a percentage of total assets, the off-balance sheet items were 17.82% in FY2021. The off-balance sheet items consist of acceptances and endorsements, letters of guarantee, letters of credit and bills for collection which covers 23.93%, 41.72%, 23.66%, 10.69% of total off-balance sheet contingent liabilities in FY2020.

### D.2. Capital Adequacy

FY2018-FY2021 data extracted from Audited Financial Statements

As per the regulatory requirement directed by the Bangladesh Bank under the Basel - III, every bank has to maintain a minimum capital requirement with capital conservation buffer of 12.50% in total from which minimum required Tier-1 capital ratio of 6.00%. In the years under review, both the Tier-I or core capital and Tier-II or supplementary capital of the bank have increased consecutively from the preceding years.

Total capital (Tier-I and Tier-II) of the bank stood at BDT 8,132.78 million in FY2021 which was BDT 7,987.70 million in FY2020 growing by 1.82%. At the same time, the risk weighted asset of the Bank has seen a growth of 11.88% standing at BDT 51,240.21 million. Tier-I capital was almost stable with growth of 0.91% in FY2021 which was lower than the growth of risk weighted assets that eventually lowered the Tier-1 ratio marginally in 2021 from the preceding year.

Similarly, the CRAR had a downfall to 15.87% from 17.44% in FY2020. However, the bank comfortably exceeded the minimum capital requirement of 12.50% in both times. The bank had a surplus capital of BDT 1,727.75 million by the end of FY2021.

FY2018-FY2021 data extracted from Audited Financial Statements

#### D.3.1. Fund Management

Generally, banks are mostly funded by deposits. For MDB, the bank's deposits accounted for 73.50% of the total funding base at the end of FY2021 followed by equity of 10.73%, interbank liabilities covering 10.31% and the rest covered by other liabilities. MDB's deposit base has improved by 12.56% in 2021 which had been increasing over the previous three years as well. The deposit base of the MDB consists of 53.61% fixed deposits and the rest is covered by current deposit (13.58%), savings deposit (8.75%), bills Payable (0.62%), Short notice deposit (14.58%) and deposit schemes (8.86%) in FY2021. This pattern of deposit composition has been stable over the 4 year period shown here. The bank has kept its ADR ratio within the regulatory requirement of Bangladesh Bank within 87% during FY2021 and scored 83.62% in the loan to deposit ratio. The net loans were 114.85% of the stable funding base in 2021 which was higher than previous year due to increased loan portfolio in recent year. During the year 2020, MDB has disbursed a total of BDT 2,074.03 million loan under stimulus facilities and BDT 1,964.76 in FY2021.

**Figure 8: Selected indicators of MDB**

#### D.3.2. Liquidity Management

Bangladesh Bank's regulatory requirement states Statutory Liquidity Reserve (SLR) of 13.00% and Cash Reserve Requirement (CRR) of 4.00% are to be maintained by conventional banks operating in Bangladesh. MDB has been maintaining Cash Reserve Ratio (CRR) and Statutory Liquidity Requirement (SLR) in line with Bangladesh Bank requirement.

For conventional banking, the CRR and SLR requirement of MDB in FY2021 was BDT 1,651.52 million and BDT 5,372.30 million as on December 31, 2021. The bank kept the required amount with surplus CRR and SLR stood at BDT 215.63 million and BDT 7,569.36 million in FY2021 respectively.

For Islamic banking, the CRR and SLR requirement of MDB in FY2021 was BDT 70.05 million and BDT 96.32 million as on December 31, 2021. The bank kept the required amount with surplus CRR and SLR stood at BDT 66.37 million and BDT 172.80 million in FY2021 respectively.

#### D.4. Earning Trends and Profitability

Net Interest Margin (%)	1.65	0.80	2.90	3.09
Cost to Income Ratio (%)	40.41	47.51	45.11	43.97

FY2018-FY2021 data extracted from Audited Financial Statements

In FY2020, primarily for implementation of interest rate cap imposed by Bangladesh Bank as well as lower demand for credit due to the ongoing covid-19 pandemic, the net interest income of MDB fell by a significant 67.69% in FY2020. On the other hand, the bank experienced a 135.47% growth in FY2021 from the position of 2020. However, the non-interest income has lowered by 12.69% in 2021. Cumulatively, the total operating income of the bank had moderate growth of 13.62% in FY2021.

Despite MDB's loans & advances growing by 17.35% in 2021, the bank's interest income from lending activities grew only by 5.47% and the interest paid on deposits decreased by 15.46%. In 2021, total operating income of the bank consisted 63.20% non-interest income that was 82.24% in FY2020. The reduction of non-interest income was mostly due to lower investment income. Moreover, commission, fees and exchange earning have also decreased during the year due to lower earnings from foreign exchange.

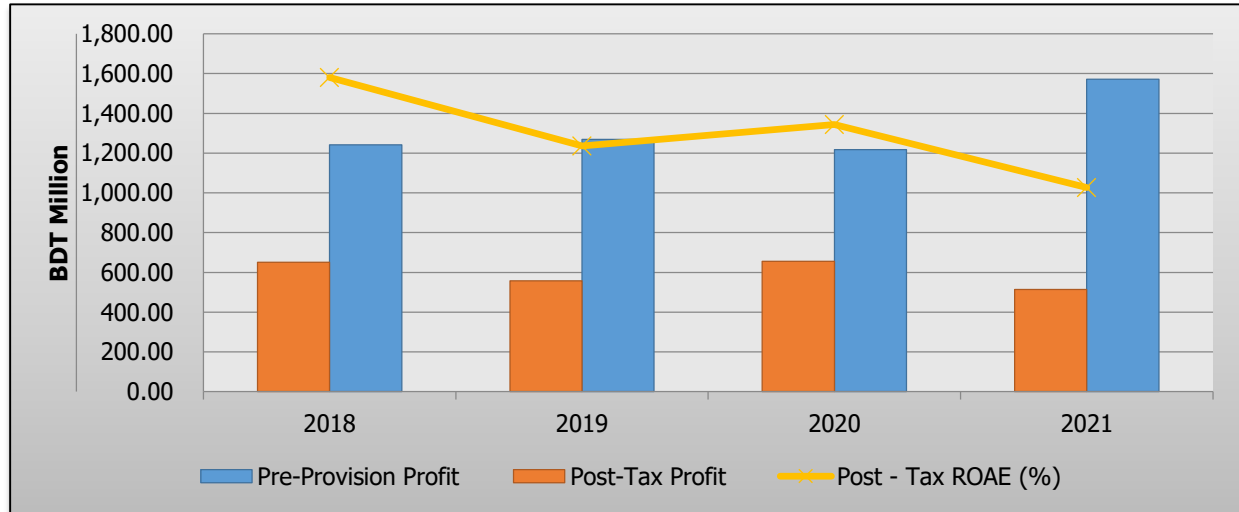

**Figure 9: Selected indicators of MDB**

MDB's operating expenses decreased by 3.36% in 2021 to stand at BDT 1,065.22 million. The cost to income ratio of the bank showed reduced figures according to the decrease of operating cost compared to operating income. As a result, the bank exhibited 28.99% improvement of profit before provision in FY2021. In FY2021, the bank's provision and tax expenses increased compared to previous year. Eventually, MDB earned lower post-tax profit of BDT 514.02

million in FY2021 from BDT 656.36 million in FY2020 with a negative growth of 21.69%. The primary contributor of decrease in post-tax profit was higher provision and tax expenses during FY2021 despite higher profit before provision and tax expenses. The net interest margin of the bank was calculated at 1.65% increasing from 0.80% in the previous year.

## FINANCIAL INSTITUTIONS RATING SYMBOL

LONG-TERM RATINGS	
Financial Institutions ratings are applied to commercial and investment banks, finance companies and discount houses.	
AAA	An institution rated AAA has an exceptionally strong capacity to meet its financial commitments and exhibits a high degree of resilience to adverse developments in the economy, and in business and other external conditions. These institutions typically possess a strong balance sheet and superior earnings record.
AA	An institution rated AA has a very strong capacity to meet its financial commitments, and is generally in a position to withstand adverse developments in the economy, and in business and other external conditions. These institutions typically possess a good track record and have no readily apparent weaknesses.
A	An institution rated A has a strong capacity to meet its financial commitments but is somewhat more susceptible to adverse developments in the economy, and to business and other external conditions than institutions in higher-rated categories. Some minor weaknesses may exist, but these are moderated by other positive factors.
BBB	An institution rated BBB has adequate capacity to meet its financial commitments. While some shortcomings are apparent, the institution is generally in a position to resolve these within an acceptable time frame. However, adverse developments in the economy and in business and other external conditions are likely to weaken its capacity to meet its financial commitments.
BB	An institution rated BB exhibits some obvious weaknesses in its operating practices and key financial indicators. The institution's financial performance has typically fallen below peer group standards. Although currently able to meet its financial commitments, the institution's financial capacity over the medium and longer terms is vulnerable to adverse developments in the economy, and in business and other external conditions.
B	An institution rated B exhibits fundamental weaknesses in its operating practices and key financial indicators. Although currently able to meet its financial commitments, the institution's future financial capacity is regarded as weak and more vulnerable to adverse developments in the economy, and in business and other external conditions than that of institutions rated BB.
C	An institution rated C has several immediate problems of a serious nature. The institution's ability to arrest further deterioration in its overall condition is doubtful and its capacity to meet its financial commitments is uncertain, without some form of strong external support.
D	An institution rated D requires sustained external support without which its continued viability is in doubt. The rating indicates that the institution is likely to default on its financial commitments or that a default may have already occurred.

Notes: Ratings from AA to B may be modified by the addition of a plus (+) or minus (-) suffix to show relative standing within the major rating categories

SHORT-TERM RATINGS	
ECRL's Short-Term Ratings reflect the institution's capacity to meet its financial commitments due within one year.	
ST - 1	An institution rated ST-1 has a superior capacity to meet its financial commitments in a timely manner. Adverse developments in the economy and in business and other external conditions are likely to have a negligible impact on the institution's capacity to meet its financial obligations.
ST - 2	An institution rated ST-2 has a strong capacity to meet its financial commitments in a timely manner; however, it is somewhat susceptible to adverse developments in the economy, and in business and other external conditions.
ST - 3	An institution rated ST-3 has an adequate capacity to meet its financial commitments in a timely manner. However, the institution's capacity to meet its financial obligations is more likely to be weakened by adverse changes in the economy, and in business and other external conditions than higher-rated institutions.
ST - 4	An institution rated ST-4 has an inadequate capacity to meet its financial commitments in a timely manner. The rating indicates that the institution is likely to default on its financial commitments, without some form of strong external support. A default may have already occurred.
ST - 5	An institution rated ST-5 has high likelihood of default, with little capacity to address further adverse changes in financial circumstances.
ST - 6	Payment in default.

Rating Outlook	
ECRL's Rating Outlook assesses the potential direction of the Financial Institutions Rating over the intermediate term (typically over a one to two-year period). The Rating Outlook may either be :	
POSITIVE	Which indicates that a rating may be raised;
NEGATIVE	Which indicates that a rating may be lowered;
STABLE	Which indicates that a rating is likely to remain unchanged; or
DEVELOPING	Which indicates that a rating may be raised, lowered or remain unchanged.
